Disaster: How would Panola County cope?

By Dorothy Muller

When the Panola County Chamber of Commerce recently held its annual meeting and banquet, President Ray C. Byrd called on area businesses to join together in a coordinated effort to deal with a major disaster. The area has been hit by several major disasters in recent years, including hurricanes, floods, and tornadoes. The Chamber emphasized the need for businesses to be prepared and to work together to ensure the safety and well-being of the community.

"Our businesses are the backbone of our community," Byrd said. "We need to be able to respond quickly and effectively to any disaster that may occur. That's why we're asking you to join us in forming a disaster preparedness coalition." The Chamber plans to hold a series of meetings to discuss disaster preparedness and to develop a plan for how local businesses can work together in the event of a disaster.

Please make it clear that I'm not a Lone Ranger. The ultimate responsibility rests with (County Judge) Mike Parker, and at the County Commission. Parker is the emergency director. He appointed me coordinator. I took my oath from him.

Weather radio activated by emergency message

I wish to take Panola County, Texas, and all of the citizens of the county, and all of the people of the United States, and to ask that you join with me in praying for the safety of all who are affected by the disaster which has befallen us. We are facing a major crisis, and we need your prayers and support in this time of need.

County emergency management officials have activated the emergency radio network to provide information and updates. In addition, they have requested that all businesses and organizations in the area be prepared to respond to any emergency. The goal is to ensure that we have a coordinated and effective response to any disaster that may occur.

Meaning of civil defense has changed

As we face the reality of today's world, the meaning of civil defense has changed. It is no longer just a matter of preparing for war, but of being ready for any emergency. The goal is to ensure that we have a coordinated and effective response to any disaster that may occur.

Dog jv coach mollified by viewing game film

Walking into the Coffey Field stands Friday night to watch the Brewer High School football team play Gladewater, Coach Chris Orcutt had a cold-footed attitude. He didn't want to see his team lose, but he didn't want to see them lose in front of a large, critical crowd.

When the final score was announced, 14-14, Orcutt was mollified. He had seen the game on film, and he was not disappointed with his team's performance.

"I'm happy," Orcutt said. "I thought we played well. We had a good chance of winning." He added, "I'm proud of my team. They played hard and gave their best." Orcutt was particularly pleased with the performance of his defense, which held Gladewater to just 14 points.
