Drought-stricken county declared ‘disaster area’

The long hot summer is over, but some water may be available. Governor Bill Clements has declared Panola County drought, along with 12 others, a disaster area due to a three-year drought and crop losses.

And farmers who suffered losses in the drought may be eligible for federal disaster aid.

Federal farm emergency loans guaranteed by the Farm Service Agency (Postal office)

Farmers can apply for loans

Farmers can apply for loans through the Federal Crop Insurance Program. Loans are made available to farmers who have suffered at least a 30 percent loss of production due to drought. Farmers with insurance policies may be eligible for additional assistance through the Federal Crop Insurance Program.

The average loan is $10,000, but the amount can vary depending on the severity of the drought and the location of the farm.

Applications for loans can be made at local Farm Service Agency offices. Applications must be submitted by May 15, 1986, but the deadline for applications can be extended depending on the need for additional funds.

An engagement of ghosts

There is something to be desired about the Engagements of the Ghosts. They are wondrous sights, and the world is filled with them. They are wondrous sights, and the world is filled with them.

capade for the future. While the Ghosts have been known to move and change, they have never been known to engage in any romantic activities. However, it is possible that the Ghosts may one day be engaged in a romantic endeavor.

The best of the Engagements of the Ghosts are those that occur in the summer months. During this time, the Ghosts are most active and can be seen moving about the world. The Ghosts are wondrous sights, and the world is filled with them.
