National Newspaper Week

October 2-8

"The country weekly has a sense of identification with its readers that is possessed by no other type of newspaper. At the same time, I believe that the country weekly acts as a form of social cement in holding the community together. The country weekly newspapers have helped keep me in touch with the type of ‘grass roots’ thinking which every public servant should bear in mind constantly. I believe that America would be poorer should any catastrophe ever remove the country weekly from our life."

A handgun's solemn, peculiar weight

To the editor:

Bubba' bites back

Ed Bubba' was the last lawman I ever served with. I've seen him on the street, on the corner, in the park. He's been everywhere. He's always been there, ready to help. He's been a great asset to our community. I've always looked up to him. He's been there for me, and I hope he's there for everyone. He's a great guy. I'm proud to call him my friend.

Women in History

Mary Anne Whitehead

Our history is filled with women who have made significant contributions. Some of these women are often overshadowed by the men who lived during the same time period. However, their impact on society cannot be overlooked. The women who have made a difference are often the unsung heroes of our history.

A weather radar

Jefferson, Texas

As we turn our attention to the weather, it's important to remember the importance of weather radar. This technology has saved countless lives and has helped us better understand the weather patterns that affect our region. The Texas Department of Transportation has been working to improve the effectiveness of weather radar in our area, and we should continue to support these efforts.

Biggs explains ‘what and why’ of United Way

By Bettye Huma

Biggs, a member of the Board of Directors of the United Way of Panola County, explained in a recent interview that the organization’s purpose is to help meet the needs of the community.

Biggs said the agency’s main goal is to ensure that all people in Panola County have access to basic necessities such as food, shelter, and healthcare. He added that the agency will continue to work with local businesses and organizations to improve the quality of life for all residents.

The giving is completely voluntary, Biggs said. This has been a successful method in the past in the county, and I believe it will be successful again.

—Warren Biggs

Wondrous world of bread invites exploration

By Dennis Bate

By Dennis Bate

The supermarket bread section is a very big business. A lot of people feel that they are getting value and variety. But what about those who like to bake their own bread? Many people feel that homemade bread is the best. But it can be a challenge to get started. The right equipment, ingredients, and techniques are important.

Geebee Borealis, a master baker at the local bakery, gives the following tips for getting started with homemade bread:

1. Get the right equipment. A good quality bread pan, a thermometer to check the temperature of the flour, and a scale to measure the ingredients accurately are essential.
2. Use high-quality ingredients. Fresh flour, yeast, and water are the basic ingredients for bread. Also, use organic or natural ingredients for a healthy alternative.
3. Follow the recipe. Get a good recipe and follow it religiously. Adjustments can be made later.
4. Practice. The more you bake, the better you will get.

Geebee also recommends taking a bread making class or workshop to learn from experts and improve skills.

Creative ideas abound

Mrs. Mistletoe shows off her bread talents.

Zoe offers suggestions for use of autumn pears

By Dennis Bate

Autumn pears are a delicious fruit that is at its peak in the fall. They are commonly used in desserts, but Zoe offers some suggestions for their use:

- Baked pears with honey and cinnamon
- Pear and almond cake
- Pear and goat cheese salad
- Pear and walnut soup
- Pear and ginger chutney

Zoe suggests using fresh pears for these recipes to get the best flavor.

TVCC romps over No. 3 Cisco

Amy stars for Roos

Clay had just moved up to No. 3 in the latest National Junior College Association Top 20 poll, and it showed. Clay won 3-0. Clay's offense was led by Amy, who scored all three goals. Amy was unselfish, playing well all around. Clay's defense was solid, and it allowed only three goals. Clay's goalkeeper, Mike, was outstanding. Clay's victory was a big one, and it showed on the scoreboard. Clay seems to be peaking at the right time.
