By Dorothy Martin

A ukelele player, skillfully played the ukelele at the Church of Christ in Mullin. The musician, who was accompanied by a keyboard player, entertained the congregation with a medley of religious songs.

In a recent article, the musician shared her passion for playing the ukelele. "I've been playing the ukelele for over 10 years now," she said. "It's a great way to express my faith and connect with others."

The musician's performance was well-received by the congregation, who praised her skillful playing and the uplifting music. "It was an amazing performance," said one attendee. "I couldn't help but.close my eyes and feel the spirit.""

First Things First

By Billy Boyd

My letter has often asked that I tell you about the things that have happened to me. I have had many experiences in my life, and I want to share them with you.

My first experience was when I was a child. I remember my mother taking me to the doctor's office for a check-up. I was very scared, but my mother was very calm. She explained everything to me, and I understood what was happening.

After that, I remember my first day of school. I was nervous, but I was excited to meet new people. I made some friends, and I learned a lot.

Next, I remember my first love. I was young, and I was infatuated with this person. I thought they were perfect, and I wanted to be with them. We dated for a while, but it didn't work out.

Finally, I remember my first job. I worked hard, and I learned a lot. I made many friends, and I had a good time.

I hope these experiences have been helpful to you. I hope they have given you an idea of what I have been through in my life. I hope you will continue to listen to me and learn from my experiences.

Lenten Schedule

St. John's Episcopal Church

Cottage: 10 a.m. at St. John's Episcopal Church for a special service.

Please Grant... an Introduction to CHURCH OF CHRIST

You should have heard the other people say that the Church of Christ is a cult. They said that they should not be allowed to have a church of their own. They said that the Church of Christ is a evil organization.

But I would like to tell you about the Church of Christ. I would like to tell you about the people in the Church of Christ. I would like to tell you about the things that they do. I would like to tell you about the things that they believe in. I would like to tell you about the things that they do for others.

I would like to tell you that the Church of Christ is a good organization. I would like to tell you that the people in the Church of Christ are good people. I would like to tell you that the Church of Christ is a good place to be.

Book Forum told about Antarctica

The Book Forum presented its national world tour with a program about Antarctica produced by filmaker BillBritish. The continent around the South Pole is covered by a sheet of ice with mountain peaks as high as 18,000 feet. Twelve countries share the continent, which contains 90 percent of the world’s fresh water supply. Last month, 400 students gave a program on the Australian continent and its life forms. The discussion was held in the dinning hall and a film was shown. The trip was planned by Helen Mangan. It was a fun learning experience for the students.
