Sabine Valley S&L bailed out by FDIC

The Sabine Valley Savings and Loan Association was one of several small banks and thrifts that were bailed out by the Federal Deposit Insurance Corporation.

The bailout was necessary to prevent the failure of these institutions.

The bailout cost the government $300 million.

The institutions that received assistance from the FDIC had failed due to bad loans and poor management.

The bailout was part of the government's efforts to stabilize the financial system.

The government has announced plans to require the institutions that received assistance to pay back the money.

Easter dates from earliest years of Church

By Dorothy McHale

Easter, in the Christian calendar, is celebrated in early spring, and its origins trace back to the earliest years of the Church. The date of Easter is determined by the lunar calendar and the vernal equinox, which occurs around March 21st. In the Western Christian Church, Easter Sunday is the first Sunday following the first full moon after the vernal equinox. In the Eastern Orthodox Church, Easter is the first Sunday after the first Paschal full moon, which is the full moon on or after the first Sunday of the Paschal month (the first month of the liturgical calendar, which begins on Sunday). Easter is a significant event in the Christian calendar, marking the resurrection of Jesus Christ from the dead.

Easter musical drama traces 'lamb' motif in scripture

By Brenda Allen

Easter Sunday, March 26, is celebrated in many Christian denominations with special services and events. In the Methodist Church, Easter Sunday is a time of reflection and celebration, with a focus on the resurrection of Jesus Christ. The service may include readings from the Bible, hymns, and prayers. The Easter Sunday service is typically the largest service of the year, with many people attending to celebrate the resurrection of Jesus Christ.
