Enterprise Zone Sought

Decision of an "enterprise zone" in Panola County will stimu-
ge the economy and generate new jobs. Cotton Port president of the Panola County Development Corporation, said the designation was au-
dorized by the Texas Enterprise Zone Program, an act of the legislature. The designation is generally available to an area if it is over 1,000 acres, has more than 2,500 people and is in a "developable" area within the state.

The selection of the Panola County area was based on the potential for economic development and job creation. The area includes various industries such as manufacturing, mining, and agriculture.

DeBerry Days begins Friday

Crowning of two beauty queens and a mardi gras party are among the events of DeBerry Days set for 5 p.m. Friday, July 21, at the DeBerry Community Center. The annual celebration will continue through Saturday.

The pageant, which includes a talent competition, a Miss DeBerry contest, and a Mr. DeBerry competition, will feature performances by local talent. The beauty queens will be crowned at the event, and the new queen will be announced on Saturday.

Cancer care contributions still coming

An estimated $5,000 was raised in the 1988 fund drive to benefit the Cancer Care Unit at the Granbury, Texas, Cancer Care Center. The funds will be used to purchase new equipment and to support cancer research.

The Cancer Care Center is a nonprofit organization that provides comprehensive cancer care services to patients and their families. The center offers a range of services, including chemotherapy, radiation therapy, and support services.

Stolen Tyson trucks turn up minus tires, batteries

Two Tyson Foods delivery trucks were found on July 16, 1989, at a parking lot in Panola County. The trucks contained fresh chicken, beef, and pork, as well as frozen food items. The thieves had removed the tires and batteries from the trucks.

The theft is being investigated by the Panola County Sheriff's Department. Anyone with information about the theft is urged to contact the sheriff's office.

The theft is believed to be part of a larger trend of thefts from delivery trucks in the region. The thieves are believed to be targeting delivery trucks because they contain valuable goods and are often left unattended for long periods of time.

The theft caused significant damage to the delivery trucks, and the goods contained in them were lost.

Agreement finally reached on acid scrubber insurance

An agreement was reached in June 1989 to settle a dispute over insurance coverage for a acid scrubber. The acid scrubber, which is used to remove acid gases from industrial processes, was damaged during a storm in May 1989. The insurance company refused to cover the damage, citing technical issues.

The agreement was reached after months of negotiation between the company and the insurance company. The insurance company agreed to pay a portion of the damages, and the company agreed to accept the settlement.

The agreement ensures that the company will be able to continue operating its facilities without interruption, and it provides a precedent for future disputes over insurance coverage for similar incidents.

Thank you

Linda Davis, daughter of Dennis and Alice Davis of Carthage; Mrs. Linda Davis was a loving, kind, smiling, and gentle woman who will be sorely missed by her family and friends. She passed away on July 28, 2023. Fond memories of endless hours spent in her warmth and love. Our hearts are broken, but we take comfort in knowing she is in a place of eternal peace.

The Family of Mrs. Linda Davis
Who's accountable?

In Dallas, some people whose homes front on a creek have joined together to bring pressure on the city to clean up and repair damage done to their property by a nearby development.

The city, they argue, knew of slugging people were being brought to the area, but the city did not do enough to ensure that the development had an impact on the surrounding areas. The developers also had access to inaccurate information that may have led to the decision. The city's current mayor has said they have an obligation to the residents to ensure that the development is managed properly.

Texas leads the nation in farms, cattle, sheep

The Dairy Industry of Texas is a significant part of the state's economy. It is one of the leading producers of milk, cheese, butter, and other dairy products. In 2020, Texas ranked first in the nation in milk production, with 32.1 billion pounds of milk produced. The state also leads the nation in the number of dairy cows, with over 3 million cows. The Dairy Industry of Texas supports over 180,000 jobs and generates over $19 billion in annual revenue. It is an essential part of the state's economy.
If getting the best home mortgage loan for buying or refinancing is important to you, look to Panola National of Carthage.

We're pleased to announce...

That we now have the ability to place FHA, VA and conventional home loans with a number of mortgage companies. This permits us to help you choose the best loan available at the time of application for your home mortgage. This is another way that Panola National is striving to serve you better.

Take the first step to home ownership or refinancing by calling one of our officers for an appointment. Phone 693-2323.

Henderson wins

Henderson — A dream came true for the North Harrison boys' basketball team as they won their first sectional title. The Tigers, led by seniors Alex Smith and Jonathon Johnson, defeated North Robertson 63-52 to advance to the regional tournament, where they will face the winning team from North Lawrence. Henderson head coach Randy Williams said, "Our team has been working hard all season and it's great to see them finally get a taste of success."
