At County Commission meeting Monday

Road, bridge system to be challenged

By DOROTHY NEVILLE

PANOLA COUNTY, Texas — The Panola County Commissioners are expected to hold a meeting at 9 a.m. Monday morning to discuss the proposed road and bridge system that is expected to cost approximately $2 million.

The meeting will be held in the commissioners’ room at the courthouse in Panola, Texas. The public is welcome to attend.

The Panola County Road and Bridge Department is responsible for maintaining the county’s road and bridge system. The department is funded through property taxes and federal and state funding.

At the meeting, the commissioners will consider a resolution approving the proposed road and bridge system. The resolution will be voted on at the meeting.

A public hearing will be held following the vote on the resolution. The public is encouraged to attend the hearing to provide input on the proposed project.

If approved, the project will include the construction and repair of several county roads and bridges. The project is expected to last several years and will require the expenditure of a significant amount of money.

The meeting will be broadcast live on the Panola County Government website and will also be available for viewing on the county’s YouTube channel.

Services set Saturday for former city mayor

By JOHN HANCOCK

Former services to be held for Panola County Mayor Robert "Bud" Williams on Saturday, May 16th at 11 a.m. at the Panola County Courthouse. The service will be followed by a reception at the courthouse.

Williams, 77, served as mayor of Panola County from 2005 to 2019. He was known for his dedication to serving the community and for his leadership during the 2012 Panola County flood.

CISD faculty places filled

By PATRICK FINCH

PANOLA COUNTY, Texas — The Panola County School District has filled all of its faculty positions for the fall semester.

The district had 21 open positions, including 16 for teachers, one for a librarian, and four for full-time and part-time staff. All positions were filled within a week of the district’s deadline for applications.

CISD is a district in Panola County that covers an area of 500 square miles. The district has a population of 18,000 and serves grades K-12.

Gas waiver possible

By DOROTHY NEVILLE

PANOLA COUNTY, Texas — The Panola County School District has announced that it will consider granting a waiver to a student who is unable to pay for their gas bill.

The waiver would be granted to a student who is unable to pay for their gas bill due to financial hardship. The district will work with the student to determine what steps can be taken to help them cover the cost of their gas bill.

Men vow to cheer nursing home folk

By DOROTHY NEVILLE

PANOLA COUNTY, Texas — A group of men have vowed to cheer on the residents of a local nursing home.

The men, who are known as the "Cheerleaders," have pledged to visit the nursing home every week to provide encouragement and support to the residents.

To ripen or not to ripen

there is no question.

August 1995 edition of the Panola County Post, featuring lifestyle articles such as a wedding announcement, a notice about rephotographing a page to assure the best possible legibility, and an announcement about a Ripon or not to Ripon column. The page also includes a brief about hot pink and white theme decorations for Jennifer Lynn West and John David Jones wedding. Additionally, there is a notice about the Ripon or not to Ripen column in the August edition of the Post, which discusses the question of ripening fruit.

For instance, the technology did not exist to remove cataracts and restore good vision for patients. Patients who were told their cataracts were "ripe" and that surgery was necessary, often ended up with poor vision and routine activities were impossible.

After surgery, patients had to wear their glasses, progressive lenses, or contact lenses that were difficult to handle. Today, with today's modern surgical technique, cataracts can be removed and good vision restored with a tiny incision that permanently implants the eye.
