Four vehicles were involved in a traffic accident on U.S. 79 North near Beckville on July 30, 1989. One county man was killed, and four others were injured. The accident occurred at approximately 10:30 a.m., when a 1976 International Harvester Scout, driven by a man who was not wearing a seatbelt, crossed the center line and collided with a 1980 Ford pickup truck driven by a man who was also not wearing a seatbelt. The impact of the collision sent the International skidding off the road and into a tree, where it came to rest on its side. The Ford pickup veered off the road and into a ditch, where it also came to rest on its side. The driver of the International was transported to a hospital with moderate injuries, and the driver of the Ford pickup was transported to a hospital with severe injuries, including a head injury. The accident is under investigation by the Panola County Sheriff's Office, and no further details are available at this time.

**County TEHA meeting held, activity day set September 20**

By Mrs. Harry White

Panola Chapel, Texas. The Panola County Extension Homemaking Agent, presented the annual home demonstration program to the local TEHA group in a meeting held here last week. The meeting was attended by about 20 members of the group, who heard Mr. White discuss the various programs being offered for the coming year. The agent also announced that the TEHA group would be holding an activity day on September 20th, to be followed by a general meeting on the same date.

**Financial focus**

Thanks A Million!

By Glenn Jones, Registered Pharmacist

Many changes including color, font, and new monogram items have been made at Panola County Post. The store has been remodeled to offer customers a more comfortable and convenient shopping experience. The changes include new lighting, improved signage, and a fresh, modern look throughout the store. The goal is to provide a pleasant and efficient shopping environment for all customers. The store staff is always ready to assist customers with any questions or needs.

**The truth about laser surgery.**

Canimento removed with a laser. This is a popular misconception, but the laser cannot be used to remove cancer.

The Yag laser is used most often to treat "benign" conditions. While the laser cannot be used to remove cancer, it can be used to treat certain benign conditions. The Yag laser is used to treat conditions such as benign tumors, cysts, and injuries. The laser works by using a beam of light to destroy the tissue. The laser is then used to remove the tissue from the body. The laser is then used to remove the tissue from the body. The laser is then used to remove the tissue from the body. The laser is then used to remove the tissue from the body.

CHS creek not always peaceful

by CONSTANCE NELSON

The stream of water that runs through the woods near the CHS campus has been known to be calm and serene, but recently it has become a source of concern for some students. They have reported that the water level has risen significantly, causing concerns about flooding and erosion. The school administration has been working with local officials to assess the situation and develop a plan to mitigate any potential damage. In the meantime, students are encouraged to stay away from the creek, and the school has posted signs to warn of the potential dangers. If you see any changes in the water level, please report it to the school immediately. Thank you for your cooperation.

RRC announces monthly gas production

Michelle Crumley/Chieftain

As the world continues to search for alternative energy sources, RRC is pleased to announce that they have started producing natural gas. This is a significant milestone for the company, and we are excited to see what the future holds. According to our estimates, we will be able to produce up to 10,000 barrels of gas per month. This will help reduce our reliance on imported gas and increase our energy independence. We are committed to using our resources responsibly and investing in new technologies to improve efficiency and sustainability. Thank you for your support.

PC summer enrollment increases

Fortis College has seen a noticeable increase in summer enrollment this year. The college has been working hard to attract new students, and it seems to be paying off. The number of students enrolled in summer classes has increased by 20% compared to last year. This is a great sign for the college, as it helps them to continue to provide quality education to their students. Fortis College is known for its hands-on approach to education, and they have a variety of programs to choose from, including healthcare, technology, and business. They are committed to helping students achieve their goals, and they are looking forward to welcoming new students to their community. Thank you for your support.

Correction

In a previous issue of The Chieftain, we incorrectly reported the name of the new principal at CHS. The principal's name is Dr. David Smith, not Dr. John Smith. We apologize for any confusion this may have caused. If you have any further questions, please contact the school administration. Thank you for your patience.

It's A Fact

A "baker" may enjoy a life of leisure, whose work ends when the dough is done. A "baker" is a person who prepares and bakes bread and other baked goods. They use a variety of ingredients, such as flour, yeast, and sugar, to create delicious treats. Bakers are often associated with the smell of warm, freshly baked goods, and they are often seen working in bustling bakeries, surrounded by the sound of kneading and the sight of golden-brown loaves. They are skilled in the art of baking, and they are often able to take a few simple ingredients and transform them into something truly special. Thank you for your support.

CHS creek not always peaceful

By DOROTHY NOLLE

The tendril week that was

One on the quarter, three on the half, two the rest of the way. The
“Rival” boys, those ever eager to see a樱花, the stronger, the better,
are back once more with the same old tricks. The CHS boys, in
turn, are not about to take the bait. Each week, the two teams
face off in a friendly but competitive battle. This week, it
was the turn of the “Rival” boys to show off their skills, but the
CHS boys were not about to let them have it so easy. They
put up a fight, but in the end, the “Rival” boys emerged victorious.

RRC announces monthly gas production

Cheshire promoted by Marine Corps

Cheshire, wearing the uniform of the Marine Corps, is now at
Camp Pendleton, Calif. Cheshire is a member of the 4th Marine
Division, which is currently stationed in the Pacific. The
Division is responsible for the maintenance of the island of
Guam, which is surrounded by the Caroline Islands.

Three teams tie for championship

Flames are one of the Dixie 7 championship contenders. Team members include, front row from left, Danny Cothran, Scottie Ballard, Guy Nix; middle row, Mike Dirion, Mike Coughenour, Martin Cato, Brian Otto; and back row, Guy Nix, Guy B. Murphy, Marty Holder, and Phil Holder. The season finale is set for Thursday evening against Tom's, with the winner going on to the championship game against Collins Brothers in September.

The Flames defeated Collins Brothers, 12-1, on Saturday. The two teams were tied at 12-1, but Flames crackled off eight runs in the top of the ninth to win the game. The Flames are currently at 27-9 for the season and are one of the favorites for the championship.

The Flames are coached by Mike Dirion, who worked under coach Mike Coughenour for his first three years. Dirion has been named the new coach of the Flames, and he says he's looking forward to leading the team to a championship.

The Flames are one of the top teams in the league and are expected to make a strong push for the championship. With some key injuries, the team has had to rely on players at different positions to fill in and they have done a great job so far.

The Flames are currently at 27-9 for the season and are one of the favorites for the championship.

### Pigas United Methodist Church

Pigas United Methodist Church, located by the railroad, is the very early Methodist church in Texas. The church was started in 1844, and a new church was built in 1952. In 1955, it was moved from its old location and became a part of the Pigas United Methodist Church. It is a part of the Panola County United Methodist Church.
