County's share of taxes jumps

AUSTIN — The Texas Comptroller's Office this week sent checks totaling $54,659.20 in tax refunds to 341 state and local governments.

The payment was the second and final refund of the fiscal year, for a total of $20.8 million sent to more than 2,500 governments.

School districts received the largest share, with $11,979.97 going to school districts, hospital districts and other political subdivisions.

Most of the money, $18.4 million, was sent to state and local governments.

The legislative package also included an appropriation to the Comptroller's Office for fiscal year 1986.

The Comptroller's Office has already refunded $83,775 this year.

The refunds are a result of the Comptroller's Office's efforts to simplify and streamline the tax refund process.

The refunds are expected to continue throughout the year.

Strength For Living  
BY JERRY BURMANAN

Our world is like an old building, with its walls cracking, and its roof falling in. But if we take the time to repair it, it can stand for many years to come. Similarly, if we take care of ourselves, we can maintain our strength and vitality. The key is to find the time to take care of our bodies and minds. Strength is not something that can be achieved overnight, but it is something that can be maintained with regular exercise and a healthy diet. So, let's take the time to repair our building, and let's take the time to repair our own bodies.
