Phi Theta Kappa sets food drive

Phi Theta Kappa is sponsoring a canned and boxed food drive. Alpha Xi Delta is urging to bring any canned goods or boxed items that you can donate to the blind shelter.

A 25% survival percentage, for you or I, or to be a basket we'd like, could be it. Silver, Chris, or Doris is a donation when you buy a cake at the bake sale.

If you are unable to provide a donation, you may purchase tickets from Jan Chou. The white dress will cost you $1.00 and come in large and small sizes. The Greek letters for Phi Theta Kappa and Phi Beta Kappa are on blue and white tickets. The money raised will be used to help the students in need to continue their education.

This Word Could Be Very Important to You, If You're Considering Cataract Surgery...

"Phacoemulsification"

Phacoemulsification is a surgical
procedure that allows a cataract to be
removed through a very small opening.

Using this technique, and a flexible lens
implant, a cataract operation can be
performed through an incision less than
1/8th of an inch long. And this incision
needs only "one stitch" to close the tiny
opening...which allows a very speedy
recovery.

Few eye surgeons are utilizing this
sophisticated technique, and even fewer
hospitals have the necessary equipment
to perform this operation. At the
Steen-Hall Eye Institute we have both
the surgeons and the equipment to provide
you with the latest, and very best
in eye surgery.

**SPORTS SUNDAY**

**Harkrider has 27, Pope 19 in shocking win**

**Dogs beat Tyler, 70-64**

By TONY COOK

Texas Christian University basketball fans were in for a shock last Wednesday when the Harkrider Bulldogs defeated the Harkrider Bears, 70-64. The Bulldogs scored a full 27 points in the third quarter alone, including a 15-point lead late in the game. The victory came after a tough battle with the Bears, who led by as much as 10 points in the first half. But with a strong second half, Harkrider pulled ahead and never looked back. The win was a significant one for the Bulldogs, who have struggled in recent games.

**GARY GIRLS BOW, 62-35**

By TONY COOK

The Gary Lady Bulldogs captured their first victory of the season on Tuesday night, defeating the Lady Bears, 62-35. The Lady Bulldogs dominated the game from start to finish, scoring a high of 15 points in one quarter. The Lady Bears tried to keep up, but Gary’s defense was too strong. The victory was a much-needed boost for Gary, which had been struggling in recent games.

**CHASING**

- The Lady Bulldogs scored 15 points in the second quarter, thanks in part to a three-pointer from Lauren Johnson.
- The Lady Bears fought back in the third quarter, but Gary’s offense was too strong.
- The Lady Bulldogs led by 27 points at the half, and never looked back.

**Zoe's Recipe Box**

**BY ALONZIA STUDHARDT**

With the Thanksgiving holiday approaching, it is time for all those last minute dishes around our house that need to be prepared. Zoe and I like to start early on our holiday cooking so that things can be in the oven by the time we are ready to eat. It is also an excuse for me to use the oven which I love. Zoe is a great help in the kitchen and we always have a good time together. Here is one of her favorite recipes that we enjoy making together.

**Spiced Apple Cake**

- 1 cup apple sauce
- 1/2 cup brown sugar
- 2 eggs
- 1/2 cup milk
- 1 tsp. cinnamon
- 1 tsp. nutmeg
- 1/2 tsp. allspice
- 1/2 tsp. baking soda
- 1/2 tsp. salt
- 2 cups all-purpose flour

Preheat oven to 350°F. Grease a 9-inch cake pan. In a large bowl, mix the apple sauce, brown sugar, eggs, milk, cinnamon, nutmeg, allspice, baking soda, and salt together. Add the flour and mix well. Pour the batter into the prepared pan and bake for 45-50 minutes or until a toothpick inserted in the center comes out clean. Serve warm with whipped cream or ice cream.

This Word Could Be Very Important to You. If You're Considering Cataract Surgery..."Phacoemulsification"

Phacoemulsification is a surgical technique that allows a cataract to be removed through a very small opening. Using this technique, and a flexible lens implant, a cataract operation can be performed through a incision less than 1/8th of an inch long. And this incision needs only "one stitch" to close the tiny opening, which allows a very speedy recovery.

Few eye surgeons are utilizing this sophisticated technique, and even fewer hospitals have the necessary equipment to perform this operation. At the Stenn-Hall Eye Institute we have both the surgeons and the equipment to provide you with the latest, and very best in eye surgery.
