State treasurer lists unclaimed money file

State Treasurer Bob R. Robbins says Friday that more than $25 million is unclaimed in the state's unclaimed money fund.

Each year, Robbins said, the state's unclaimed money fund grows to between $30 and $35 million. The money in the fund is invested by the state of California, and the interest earned is used to pay for the costs of administering the fund.

The state treasurer lists unclaimed money in several categories, including bank accounts, stocks, and bonds. The unclaimed money fund is administered by the California Department of Finance, and the money is available for claim by anyone who can prove that they are the rightful owner of the funds.

For more information, visit the website of the California Department of Finance at: https://www.ca.gov/index.php/finance/who-we-are/staff-information/finance-sources/unclaimed-money.

State Capital Highlights

Dallas, Texas—The Texas Legislature is in full swing, and the days are filled with debates, hearings, and votes on a wide range of issues. Here are some highlights from the past week:

- The Senate has approved a bill that would increase penalties for animal cruelty.
- The House has passed a bill that would restrict the use of non-lethal weapons in federal law enforcement.
- A bill that would require public schools to teach about the Holocaust has been introduced.

Thank you for reading Panola Newspapers.

Cranford, who served in the House for 12 years, is a strong advocate for the residents of the Panola County area. He is currently working with the community to improve public safety and reduce crime. Cranford is a former police chief and has a proven record of leadership in law enforcement. He is dedicated to upholding the law and working for the betterment of the community.

A white king I found out that the owners of the Panola County Post are planning to close the publication and move their operations elsewhere. This is a very upsetting news to the residents of the county. The Post has been a valuable source of information and entertainment for many years, and its closure would be a major loss for the community. We urge the owners to reconsider their decision and find a way to keep the Post in operation.

In the battle for position in the luxury car field, Cadillac is still our nation's first line of defense! HONEST!

In comparison of the 1990 Sedan Deville versus the closest challenger (Gema Who), Cadillac is:

- Longer
- Larger V8 Engine
- 25% More Horsepower
- Costs almost $400 less

For the past three years it has been my pleasure to serve the people of Panola County in representing Pcts. 1 & 4, as Justice of the Peace. This is a privilege given to me by the people and I assure each and everyone it continues to be a privilege sincerely appreciated.

In earnest, this was the job I wanted to do and I told the voters in 1996, "I will do the best I can and will work for you - the people." This has been one promise made easy to keep and it's been easy due to the support the people continue to give me.

In seeking re-election, I ask again for your vote and continued support.

*By HERNANDO D. JOHNSON*

It's a problem that's becoming more and more common: obesity. And while many people are aware of the health risks associated with being overweight, there are still others who don't fully understand the seriousness of the issue. It's a problem that affects people of all ages and from all walks of life, and it's one that the medical community is working hard to address.

I am asking for your financial support. By donating $50 or more, you can join the fight against the special interests that seek to buy our democracy.

Together, we can make a difference in the lives of Texans. Thank you for your support.
