The latest fad on the market is the new Medically Assisted Aspirin. It is a revolutionary new product that has been developed by Dr. John Smith, a well-known cardiologist. The Aspirin is said to be effective in reducing the risk of heart attacks. The company claims that it is a natural and safe alternative to traditional aspirin. The product is available at Winn-Dixie for only 67¢ less than the competition. It is advisable to check with your doctor before using any new medication.

Court made good choice in Pool for PGH board

Pennsylvania Democratic leaders worked to have Philip Pool appointed to the Pennsylvania Public渠金 (PGH) board of directors. Pool is a well-qualified candidate with a strong record of public service. He has served as a city council member, a state senator, and as the mayor of Pittsburgh. His leadership will be crucial in guiding the PGH, which is tasked with ensuring fair and efficient public transit. We commend the leaders for making this good choice.

Insure uninsured paying their way

When you come to Pennsylvania, you will find that many people have insurance. However, there are still many uninsured. The state has made good progress in expanding Medicaid, but there are still gaps in coverage. The uninsured are paying a higher percentage of their income for healthcare. This is unfair and unaffordable. We need a comprehensive solution to ensure that everyone has access to affordable health insurance.

Feminism, there is as little use for that word, when it is a equality that has been purchased for us at the cost of lives or personal freedom. This is a way to take time from the past and other events that we need to match the women's place in society. Let's refrain from the day in memory of the man and spend time in the day in memory of the women who gave us equality and so we might enjoy our freedom. We invite you to attend Memorial Day services at the church of your choice.
