Thursday meeting draws scant crowd

City seeking grant funds

Despite the heat Georgetown city officials are hoping to secure funding. The city has applied for over $300,000 in federal grants to help with landscaping and other improvement projects. The city hopes to improve the downtown area and increase tourism. The meeting was held in the historic courthouse and included representatives from various local organizations.

CHS group places third

Guthrie High School's Technology Student Association (TSA) placed third in the state final competition. The TSA team worked on a project to develop a community garden. This is the second year in a row that Guthrie TSA has placed in the state competition.

Panama gas production up

The production of natural gas in Panama County has increased significantly in the past year. This increase is expected to continue as the local gas field expands. The Texas Natural Gas Production report shows that production in the county increased by 20% in the past year. The report attributes this increase to improved infrastructure and increased demand.

Indipendence Day full celebration

Panama City residents celebrated Independence Day in a variety of ways. Many people gathered in the downtown area to watch the fireworks show. There were also several events throughout the day, including parades and community picnics. The day concluded with a large fireworks show in the downtown area.

Local figures buck statewide trend

Despite the statewide decline in natural gas production, there has been an increase in production in Panama County. This is likely due to the development of new gas fields in the area. The increase in production is expected to continue as more fields are developed.

Death toll equals projection

The death toll from Hurricane Katrina in the area has matched the projections made by emergency officials. The number of deaths in the area has remained relatively low, with only a few dozen fatalities reported. This is in contrast to the nationwide toll, which has surpassed 1,000.

Safe holiday reported

Emergency officials have reported a safe Independence Day weekend in the area. There were no major accidents or incidents reported, and the weather was generally favorable. This is in contrast to previous years, when there were several incidents reported.

SWIPDO moves to new location

The SWIPDO office has moved to a new location in the downtown area. The new location is expected to provide better access to services and increase efficiency. The move is part of the organization's efforts to improve its services to the community.
