Actually, there's nothing wrong with taking the outside of the head of the garlic that is slightly blackened. That's the way it's supposed to be.

Pups’ rally falls short
16-AAAA title out of question now for Carthage

Kilgore frosh win showdown, 15-14

By TRYCE EAGLES

KILGORE — Kilgore’s Frosh team kept the 16-AAAA title out of question now as the Frosh team defeated Carthage, 15-14, on Friday night at the ISD Sports Complex. The Frosh team had three scores in the third quarter, but they could not hold on to their lead in the end. A Carthage touchdown in the final minute tied the score at 15-14, and Kilgore won 15-14.

How you keep the organization of your country going will affect your country. The
army, the air force, the navy, the marines, the coast guard, the national guard, and
the military reserves all work together to keep our country safe. The future of
the United States is in the hands of the military. The military is made up of
people who are responsible for keeping our country safe. The military is also
responsible for making sure that our country is prepared for any possible
attack.

PC cutting down registration time

Starting this month with spring registration, students at Panola College will no longer have to wait in long lines to get their registration forms completed. The college has added a new computer system that will cut down the time it takes to fill out forms and then process them through the computer.

"This is a big improvement," said Dr. J. B. Williams, director of student services. "Students will now be able to get all their forms completed in one trip, which will save them time and money."

The new system will be rolled out gradually over the next few months, with the first phase focusing on incoming freshmen.

Dr. Williams said that the new system will allow for more flexibility in terms of when students can register. He added that the college is looking into the possibility of expanding the system to other campuses in the future.

The system will be tested in the spring semester, with full implementation expected by the fall.
