Police nab third suspect

Officer remove the last

Cottage police believe they have apprehended the individual responsible for a second break-in at the cottage of Mr. John Smith.

At approximately 4 a.m. Sunday morning, a series of break-ins occurred at the cottage located at 123 Main Street. The break-ins were reported to the local police department.

The suspect, a male in his early 20s, was seen entering the cottage through a window. He was wearing dark clothes and had on gloves to avoid leaving fingerprints.

The suspect reportedly entered the cottage and took several items, including electronics and jewelry. The suspect then fled the scene, leaving behind a trail of broken glass and forced entry points.

Police officers arrived on the scene within minutes and began searching the area. They noticed a vehicle parked near the cottage, which matched the description of the suspect’s vehicle.

The police officers pursued the suspect, who was driving at a high speed. The suspect attempted to evade capture by taking a series of sharp turns and speeding up.

Officer Smith, in a daring chase, managed to catch up with the suspect and initiated a high-speed chase. The suspect attempted to escape by driving into a nearby lake, but Officer Smith managed to retrieve the suspect from the water.

The suspect was taken into custody and charged with three counts of burglary and one count of theft.

The police believe this is the third break-in at the cottage, and they are currently investigating the possibility of a series of break-ins.

Police urge residents to remain vigilant and report any suspicious activity to the police department immediately.
Picnic packing for food safety

Even in the shorter days of summer, it's time to think of packing a picnic for an outdoor outing. Here are some tips on how to keep your food safe and delicious:

1. Choose the right containers: Use insulated containers to keep your food cold. Avoid using containers made of metal, as they can retain heat. Use a cooler with a lid to keep out moisture and to prevent the food from getting soggy.

2. Keep it cold: Make sure your food is kept cold throughout the day. If you're going to be away from the cooler for more than an hour, you might want to consider adding ice packs to keep your food fresh.

3. Bring food that doesn't require refrigeration: Foods like sandwiches, fruit, and cheese can be a good option as they don't require refrigeration and can be eaten without utensils.

4. Avoid salads: Salads can be a good option for picnics, but they can easily get soggy and spoil. It's better to bring a fruit salad instead.

5. Use utensils: Bring your own utensils to avoid cross-contamination. If you're planning on bringing leftovers, make sure to use clean utensils for each food item.

6. Don't leave the food out too long: Once you open a container, make sure to eat the food within a few hours.

7. Always wash your hands before and after handling food.

8. Lastly, don't forget to clean up: Make sure to clean up after yourself and leave the area as you found it.

Safety is key when it comes to picnics, so make sure to follow these tips to keep your food safe and enjoyable.

Have you heard the one about the hot-dog vendor?

Regardless of the economy, hot dogs are a staple of the American diet. However, many people have asked whether it is possible to make a good hot dog. I decided to test this theory by purchasing a hot dog from a stand and eating it. To my surprise, the hot dog was actually quite good. I learned that the key to making a good hot dog is to use high-quality ingredients. I also found that the hot dog stand owners are quite knowledgeable about their product. For more information, contact me at 813-539-1234. The hot dog stand is located at 101 N. Bay St., Clearwater, FL 33755. The entry fee is $25 per hot dog, and all funds raised will benefit the Clearwater Police Department.
