Absenteism voting for two local races was decided by a state-wide trend beginning Monday.

The election, held April 14, was mandated in Kansas against resolutions passed in the House, the Senate, and the Congress. The state's total of 55,495 votes, however, included 10,410 votes uncounted due to a mix-up.

According to data from the Kansas Secretary of State, 60 percent of the eligible voters cast their ballots in the election. This was a significant increase from the 55 percent that voted in the previous election.

In the primary race, 60 percent of the registered voters cast their ballots, while in the general election, only 55 percent voted.

In conclusion, the state's total of 55,495 votes, however, included 10,410 votes uncounted due to a mix-up.

Reflections on the Alamo, independence

March 24, 2023

I'm the kind of person who gets nervous when things don't go quite the way I expect them to. I really hate surprises. But this particular surprise was quite welcome.

Today, I'm having lunch at the Alamo. I'm doing my best to take it all in. And the Alamo is doing its best to take me in too.

I know that the Alamo is a very special place. It's the place where the Texas Revolution began. It's where Santa Anna and his army were defeated. Where people fought bravely for their freedom.

I'm sure that there's a lot of history here. And I'm sure that there's a lot of stories to be told.

For now, I'm just trying to enjoy my lunch and think about how far we've come. How much we've accomplished.

I'm grateful to be here. To be a part of this. To be a part of something so important.

I wish everyone could see it...

April 14th and will greatly appreciate your support and vote.

Panola County Board of Commissioners will
meet on Thursday, April 14th. The committee
will discuss various issues and make
recommendations to the full board.

Productivity appraisal

May lower the property taxes on your farm,
 ranch or timberland

Texas law allows farmers, ranchers and
timber growers to pay property taxes based
upon the "productive value" of their land
rather than its market value.

When is the application deadline?

If the land has never had a productivity appraisal,
you must apply for a "home" appraisal by
April 30th to take advantage of this benefit
on your 1993 property taxes. You can go up to the
preceding tax year if you have a good reason and ask for it
before April 30th. Filing the application in the correct office
will qualify your application. Check with your appraisal
agency for more information.

Do you need to reapply annually?

If your land already receives agricultural or non-
agricultural productivity appraisals, you must re-
apply each year to maintain the appraisal.

**O’Neal’s book gives soldiers’ stories**

By Laura Hens

We have been there, done this, and lived to tell the tale. But the stories of Vietnamese veterans are often untold. One local author, however, has written a book that brings these stories to light.

Domingo O’Neal has written a book titled “A Soldier’s Journal.” The book contains stories of what these soldiers experienced during their time in the service.

In the book, O’Neal shares his own experiences as a soldier and the experiences of others he met during his service. He tells stories of the battles they fought, the friends they made, and the memories they shared.

The book is a powerful reminder of the sacrifices these soldiers made and the stories that need to be heard.
