The May election nears

Extended period ends Tuesday

If you want your voice heard in the arena of ideas that are presented on the May 2 election ballots, but don't have time to make it to the polls on that fateful day, then get ready to vote. The election is fast approaching, and the stakes are high.

Two years ago, the Texas Legislature passed voting reforms that changed the name of early voting from "absentee" to "voter registration." The change in name reflected the fact that early voting is in place and only needs to be done once. This method of voting has been one of the most effective ways to ensure that voters get to the polls on election day.

The May election is set for May 2, 2009, and the candidates for the City of Garland, the City of Plano, and the school boards of the North TX and Plano ISD will be on the ballot.

The City of Garland will be electing three council members, one mayor, and the city's mayor pro tem.

The City of Plano will be electing two council members and one mayor.

The school boards of the North TX and Plano ISD will be electing three members each.

Elections are not only about choosing the best candidates, but also about who will represent the voters. The May election is a chance for the people to have a voice in the future of their communities.

In conclusion, the May election is an important opportunity for the people to have a say in the future of their communities. It is a chance to elect the best candidates and ensure that their voices are heard in the arena of ideas that are presented on the May 2 election ballots.
Arrest report

Jorge Acosta, 33, was arrested at 10 a.m. on May 1 for allegedly stealing a car. Acosta, who lives at 123 Main St., was seen by witnesses breaking into the car parked outside the local hardware store. Witnesses said they saw Acosta hot-wiring the car and driving off. Acosta was charged with larceny and booked into the Panola County Jail on $10,000 bond.

It's a Fact

In 1995, almost 60% of the population of the United States was under the age of 30. Today, that percentage has decreased to about 50%. This is due to a variety of factors, including a decrease in birth rates and an increase in life expectancy.

**Oh, I Remember That Day**

"Our team's best win. I tried hard to give thanks to all the support I've received, but I didn't know how."
Dr. Steven Dickhaut knows sometimes success is hard to see.

Because of some very small instruments and some very powerful microscopes, some very tiny work has to be done, procedures that were thought of as impossible ten years ago are considered routine today. Dr. Steven Dickhaut is very important to Wayne and his grandfather, Steve. Dr. Dickhaut’s expertise allowed him to reach a partially uniliated hand for Wayne. So when little Stephen broke his leg, where else would he go — The Orthopaedic Center.

Even though the results of Dr. Dickhaut’s treatments sometimes don’t show on the surface, he’s pushing people back into the game of life. Sometimes success is hard to see.
