Ratcliff praises ethics reform

Since when was the subject of a bill such a hard question? That’s what I would ask if I were a lobbyist. I would ask why it is that ethics reform is such a difficult subject. It seems to me that if we can’t agree on what ethics means, we can’t agree on how to reform it. The House passed a bill to reform ethics, but it was vetoed by the Governor. This is not a good sign for the future of ethics reform in our state. It seems that the Governor is not interested in reforming ethics. I would hope that if he were a part of the process, he would be more interested in reforming ethics. But he is not, and that is a problem. If we can’t agree on what ethics means, we can’t agree on how to reform it. The House passed a bill to reform ethics, but it was vetoed by the Governor.
