CISD will approve tax rate today

The new Carnegie Independent School District tax rate will be 1.07 percent of the net equalized value of property in District. The rate is currently 1.05 percent, or about $1 per $1,000 of property value.

The rate was set after the District's tax consultant presented recommendations to the Board. The consultant recommended a rate of 1.03 percent, but the Board decided to increase it to 1.07 percent to fund the construction of a new middle school.

CISD is the second largest school district in the state, with over 50,000 students in 14 schools. The District is facing a $10 million budget shortfall this year and needs additional funding to maintain its current level of services.
