Managers purchase stress test equipment

By LAURA NICHOL

For a serious stress test, don’t com- plete the examination without a pause. But if you’re managing a hospital, you may not want to take a break. The St. Barnabas Medical Center in Livingston has installed a new computer stress test machine that can monitor a patient’s heart rate and blood pressure during a stress test. The test can be performed on any patient with a history of heart disease, and it can detect early signs of heart problems.

In a significant move, hospital courts in several states are being considered for relocation to Panola County, according to hospital administrators. The proposed move would allow hospital courts to operate more efficiently and to provide better care to patients. The current system is inefficient and costly, and it is time for a change.

THE BIBLE IS OUR SET OF "BY-LAWS" FOR A GOOD LIFE

Every organization, be it political, social or whatever, has its officers but it is mainly governed by a set of rules called the by-laws, which tells the members what they can or cannot do. The Bible contains a set of by-laws for the organization known as the human race. They include the Ten Commandments. Throughout the sacred Scriptures are instructions for living a good life for ourselves and others. If anyone wants to change these rules, ask anyone else. The by-laws of other organizations are subject to occasional revision, as circumstances change. But there has never been any rule so far that has contrasted between the Bible and its validity in external and internal matters. You will learn about these Biblical by-laws by studying your House of Worship.

Turkey, from pg. 7

Turkey is a turkey. Turkey is the turkey you buy in the supermarket. When you bring it home, it sits there until you're ready to cook it.

If you're planning to stuff the bird, don't stuff it until you're ready to roast it. To stuff, score several slits in the breast skin. Then stuff the bird. Make sure the skin is not too tight. Tuck the wing tips under the bird. Cover and roast in a 350-degree oven for 20 to 25 minutes per pound.

Stuffing can be used to fill the cavity or to stuff under the skin. Stuffing can also be placed in the neck cavity. Cover and roast for 20 to 25 minutes per pound.

For 10- to 20-pound turkeys, allow 3 to 4 hours. For 20- to 24-pound stuffed birds, allow 5 to 7 hours.

Unstuffed birds generally take 20 minutes less than the roasting time of stuffed birds.
