Hospital approves budget

BY CHARLES McCULLEN

Editor

for many local government agencies, the Christmas season is when the new budget season begins. The Board of Directors of the Panama City School District was an exception. After an extensive search, the district approved a budget for the coming academic year, July 1, 1972, to June 30, 1973.

The budget was in excess of $12 million, with a surplus of $220,000. The new budget included an increase of $1 million in the school system's operating budget.

The budget was approved by the Board of Directors, consisting of seven members, at a special meeting held on December 20, 1972.

The budget included increases in all departments, including the following:

- $150,000 for the operation of the school system.
- $100,000 for the construction of new schools.
- $50,000 for the purchase of new equipment.
- $25,000 for the hiring of new teachers.

The budget was approved by a vote of 6 to 1, with one abstention.

The new budget was expected to result in a $200,000 surplus for the coming academic year.

The budget was presented to the Board of Directors at a regular meeting held on December 19, 1972. The budget was approved by a vote of 6 to 1, with one abstention.

The budget was expected to result in a $200,000 surplus for the coming academic year.

The Panama Watchman

Officer for the Panama County Agricultural Conservation Service said for the following year, the Panola County Conservation District will be empowering farmers who are entering into new land use contracts to receive a 25% federal funding for their projects. The officer said the funding will be used to help pay for technical assistance, administrative costs, and other expenses associated with the projects. The funding is provided to assist farmers in developing and implementing conservation practices on their land, including soil and water conservation, crop rotation, and other sustainable farming practices. The goal of the funding is to help farmers improve the environmental quality of their land and reduce the impact of their operations on the surrounding ecosystems. The officer encouraged farmers to consider applying for the funding to help support their efforts to achieve these goals.

BMS to use peer helpers

BMS Middle School has hired a team of Peer Helpers to assist with the school's academic and behavioral needs. The Peer Helpers program is designed to improve student engagement and academic success. The program is led by Mr. John Brown, the school's behavioral coordinator, and is supported by the school's counseling department.

Carthage oil, gas news

Carthage County's oil and gas industry remains strong, with several companies investing in new exploration and development projects. The county's oil and gas reserves are estimated to be worth over $1 billion, making it a key player in the state's energy sector.
