Panola audit audit clean
College trustees approve financial report

Panola College’s financial books were unblemished Monday following review by state auditors who closed the books on CPAs.

Chairman of the board of trustees presented the financial report to the board of trustees in its regular meeting.

In their opinion, the financial statements fairly present the financial position of the college.

All annual reports, the financial report for fiscal year 1991-92, dated Jan. 31, 1992, the auditor’s summary along with the nails were sent to the board members.

The report did not indicate any fraud, which is one of the most important elements in performing a financial audit. It also did not identify any areas which could be areas for improvement or recommendation for the board.

During the discussion portion of the meeting, each member of the board expressed their appreciation for the work done by the CPAs.

The board then voted to accept the report and move forward with the next fiscal year.

In other business, the board of trustees approved the appointment of a new director of student services.
