Dig that crazy beat Tuesday

If music from the '80s and '90s gets your feet tapping, if you love to dance to the rhythm of the decade, then you don't want to miss this event.

"We've got the best DJs playing hits from the '80s and '90s, and the dance floor won't stop moving," said event organizer, Sarah Smith.

"This is going to be a night you won't forget, so come on out and let loose.

GOD WILL LISTEN TO YOUR PRAYER AT ANY TIME OR PLACE

There are many misconceptions about prayer, as well as many misuses of it. Some people think that only the rainy season and the time of the horse race are when they should pray, or at any particular time of day or place. The truth is that any time or place is appropriate, because God is always on hand to listen if the prayer is of the right kind and for any good purpose. A prayer should begin with an expression of gratitude for our blessings. Next, it should not be a "shopping list" of the material things we want to have, but instead, a plea for the recovery of someone who is ill, the comfort of a person who has just lost a loved one, help for the unemployed, or any number of unjust requests. We may well find these prayers answered, and possibly receive some unusual blessings for ourselves.

More things are wrong with prayer than this world dreams of. Let the voice rise night and day.
