Trash troubles city
Regulations force search for alternatives

By RAYMOND MANCHA

The city of Corpus Christi is in the process of revising its solid waste disposal regulations to address growing concerns over the management of trash.

As waste disposal becomes more expensive, the city is considering options to reduce costs and improve efficiency. One proposed solution is to implement a fee system based on waste generated by households, with higher fees for larger amounts of waste.

The changes are intended to encourage residents to reduce their trash output, thus alleviating pressure on landfills and reducing environmental impact. The city hopes the new regulations will also generate needed revenue to fund waste management initiatives.

City officials are currently working with the Solid Waste department to finalize the new regulations, which are expected to be implemented in the near future.
**Hospital news**

A 25-year-old woman was killed in a car crash on Sunday night.

**Hospital staff**

- Dr. Daniel Smith, director of emergency services
- Dr. William Johnson, chief of staff
- Dr. Sarah Brown, chief of nursing

History research includes filibusters, empresarios
Know Your Heritage

by Ruby L. LeFlore

I have been doing some Texas history research recently, and it is fascinating. I've been particularly interested in the lives of the empresarios and filibusters who played such a significant role in the state's history. These individuals were key players in the development of Texas, and their stories are both compelling and complex.

One of the empresarios I've been studying is Antonio López de Santa Anna. He was a Mexican general and politician who played a crucial role in the struggle for independence from Spain and the subsequent creation of the Republic of Mexico. Santa Anna was a complex figure, with a career that included both triumph and defeat.

Another individual I'm exploring is Amasa Bond Palmer. He was a pioneer who helped settle the region that is now Dallas. Palmer was a Fur Trade Fur Mule Driver and was involved in the early development of the city.

I'm also delving into the world of the filibusters, those who fought against Mexican rule and advocated for Texan independence. One notable figure is James Fannin, a Texan who led a failed attack against the Mexican army at Goliad in 1836.

These research efforts have given me a deeper appreciation for the rich history of Texas and the contributions of its early inhabitants. I encourage others to explore these fascinating stories and gain a better understanding of our past.

Panola Profile

Service League praises support
Reports 1993 productive year

Members of the Service League of Panola County praised donors for their support in 1993, saying the donations made a significant difference in the lives of those they serve. The group reported a productive year and expressed gratitude for the contributions made.

Thrift Shop benefits community

Service League's Thrift Shop continued to serve as a source of support and savings for the community. The shop provides a place for community members to sell their gently used items, and the proceeds are used to support various community projects.

Courthouse news

In the latest Courthouse news, there was a decision regarding a property dispute. The court ruled in favor of the plaintiff, stating that they had the legal right to the property in question.

Lakeboard considers legal action

The Lakeboard is considering legal action in response to a recent incident. They are concerned about the potential impact on the lake's ecosystem and are exploring their legal options.

Card of Thanks

The Swisher family extends a heart-felt thanks to the many patrons and supporters who have helped make their business successful. They express gratitude for the continued support and encouragement from the community.
