This past week my wife and I were driving home from a day trip. We got stuck in traffic on the 10 Freeway. This happens quite often, but it was a really bad time, we had to be in town by 5:30... We were running out of gas, and our car had died. We had no phone and no one was answering the phone in the nearby gas station. We walked around for a while, and then we saw a gas station. We walked up and they had a car repair service, and they were able to fix our car. We were really happy...

Keeling's Eagle project falls victim

Andy Keeling worked all last fall to create an eagle with a rock in his talons and a peace symbol on his breast. The eagle was designed to be a visual representation of peace at the entrance of Hackler's Pool, a popular swimming hole in Keeling's hometown of New Braunfels.

KEELING, TX.—(AP) — Andy Keeling, 15, was disappointed when he returned to his hometown of New Braunfels to find his eagle sculpture missing.

"I was so excited to see my eagle when I came back to town," Keeling said. "I worked hard on it all last fall and I was proud of what I had accomplished. To have it disappear like that was a real blow to my confidence."

Keeling's eagle was located near the entrance of Hackler's Pool, a popular swimming hole in New Braunfels. The eagle, made of wood and covered with layers of paint, was designed to symbolize peace to those who enter the pool.

"I wanted to create a lasting monument that would serve as a reminder of the importance of peace," Keeling said. "I hope my eagle will be found and returned to its rightful place soon."

The local police are investigating the theft of the eagle, and Keeling is offering a reward for its return.

"I would appreciate it if anyone who has seen my eagle would come forward and help me bring it back," Keeling said. "It meant a lot to me and I want to see it stay in place where it belongs."
