Investigation launched into driveway repair

BY LAURA NEIGH

A critical investigation was launched this week into the incident that led to the complaint of three Panama City residents and many other residents who have been unable to repair a damaged driveway.

World said he wants to have heads in the sand if we don't investigate.

The incident, which involved a sinkhole, occurred on Woodland Drive, near the intersection of 11th Street and Woodland. World said he wants heads to be on his mind if we don't investigate.

The problem that has kept us from repairing the driveway continues to grow, World said. World alleged that the city has not been able to repair the driveway, and he is concerned about the condition of the driveway.

World wants an investigation to be conducted, and he wants the city to take responsibility for the damage. World said he wants an investigation to be conducted, and he wants the city to take responsibility for the damage.
