Water board looks to collect delinquent fees

By LAURA NEGRE
Lake Monroe residents who have neglected to pay their monthly, quarterly and annual fees will now be hearing from the Panola District Water Board about the non-payment of their bills and the consequences.

The district board voted Tuesday to begin delinquent letters to the water customers who are delinquent in their payments. The notices will be sent to the last known address and may take three to four weeks to be delivered.

Board chairman Pete Kastel said the water district's treasury has been filled with revenue from late payments and interest earned from the money. Many of these late payments are on accounts that are only four months behind.

Kastel recommended that the board send a second notice to delinquent customers who owe the largest amounts, giving them 10 days to respond, and pursue action in small claims court if the letters are unaccounted for.

Bill Schirle, who heads the district, received word that some of the non-paying customers may be sending their mail to other addresses, possibly in order to avoid the bills.

Board members also discussed the possibility of taking legal action against those who refuse to pay their bills. However, Board member Dickie Jones recommended the board send a second notice to delinquent customers who owe the largest amounts, giving them 10 days to respond, and pursue action in small claims court if the letters are unaccounted for.

C.PA makes request for pay increase

The board of the Panola County Farmers and Ranchers Association met recently to discuss the possibility of requesting a pay raise for its members. The board also discussed the possibility of increasing the dues for members.

Ray Schellhorn, the first vice president of the Panola County Farmers and Ranchers Association, said the board will need to consider a pay increase for the next fiscal year. The board has already increased the dues for members.

The issue will be discussed at a special board meeting on the last Tuesday of the month.

Construction began in October on the high school's new two-story addition. The project is expected to be completed and the building open by the fall of 2018.
