Beckville ISD considers bus purchase

By Donald Abumahl<br>
THE PARIS NEWS<br>

Beckville school board members have decided to purchase two new buses. The decision was made during the meeting in which the board approved the purchase. The new buses will replace two older ones that are being retired. The cost of the purchase is $1.5 million. The school district has been struggling with budget cuts in recent years, and the purchase of new buses was seen as a necessary investment in the future. The board members were pleased with the decision and look forward to the improved safety and comfort for students and staff. They expressed their appreciation for the hard work of the superintendent and his staff in making this decision. The new buses are expected to be delivered in the fall of next year. The school district is hoping to have them in service by the start of the new school year. The board members were also pleased with the decision to purchase the new buses and look forward to the improved safety and comfort for students and staff.
