The article about the foster parents is a heartwarming story. It's great to see how these parents are making a difference in the lives of children. More stories like this should be shared to encourage others to step up and help.

You Have Much More To Be Thankful For Than You Know

O Lord! That heals our soul.
Let me in the house of the living.
—Psalm 130:5

"Offer unto God thanksgiving and pay your vows unto the Most High."—Psalm 100:4

Now whatever your lot in your journey may be, Be it humble or indigent, or trouble or smooth. Let's consider the height and depth and scale of it. For despite all your strivings at least you are here. No matter what your limitations may be, you are here. So, let's celebrate the fact that we are among those who are so privileged to be able to do something about the world.

Dawgs suffer third loss

John Tyler routs Carthage by 94-36

John Tyler will still be the football coach. He has a 20-0 record in the last two seasons. The Trailblazers have had two seasons with no losses.

Chapin_Rutledge chose 23 as the number because he's a 60-year-old man who is in charge. The number 36 is 60 times 6.

Chapin Rutledge is the head coach of the Trailblazers. He has a 20-0 record in the last two seasons. The Trailblazers have had two seasons with no losses.

Carthage did not have a player reach 20 points. The best the Stallions could do was 14 points in this game, which only adds to their woes.

John Tyler looks for a third straight year to be the winningest team in the area. The Trailblazers have had two seasons with no losses. So it's not surprising that the Trailblazers are the most successful team in the area.

Home away from home: Yugoslavian teen fitting in with East Texas family

By Laura Negri

The Pamala Watchman

Once upon a time, the world was a small place. People knew where they were going and there was a familiar guide to help them on their way. Now, however, the world has grown much bigger, and the guide is not always as clear. For some, the journey can be difficult, especially for those who come from a different culture.

One such person is Milanka Nikolic, a Yugoslavian teenager who has recently moved to Texas. She is one of many people who are struggling to fit in and make friends in a new environment. Milanka is a bright and cheerful girl who is eager to learn about her new home.

Milanka's family had always dreamed of moving to Texas. They were attracted to the state's warm climate and the opportunity for a better life. When they arrived, however, they found that the transition was not easy. Milanka struggled to adjust to the new culture and the language was difficult for her to learn.

Milanka's English is not very strong, and she often finds herself feeling isolated. However, she is determined to make a new life for herself and her family. She is enrolled in a local high school and is working hard to improve her English skills.

Milanka's mother, Zdenka, is also finding it challenging to adapt to the new environment. She misses her friends and family back home, but she is trying to make the best of the situation.

Despite the challenges, Milanka and her family are making progress. They are learning to appreciate the culture and the opportunities that Texas has to offer. Milanka is grateful for the support of her family and friends, and she is determined to succeed in her new home.

Milanka's story is just one of many. There are many other Yugoslavian families who are struggling to fit in with the new culture. However, with hard work and determination, they are finding ways to make their dreams come true.

Milanka's story is a reminder that everyone has their own struggles. But with the right attitude and support, they can overcome any obstacle.

Milanka and her family are grateful for the warm welcome they have received in Texas. They are excited to see what the future holds for them and their new home.
