DON'T BE MISLED

1. Bob Dole said he was proud to be one of 25 senators to vote against creating Medicare in 1965.

2. Newt Gingrich said the Republicans couldn't afford to kill Medicare, but they could let it wither on the vine by privatizing it.

The Republican plan cuts Medicare over $250,000,000,000.00 Billion while giving the wealthy a $270,000,000,000.00 Billion tax cut.

Protect Medicare, social security, student loans, school lunches, the environment and education.

The Sheriff's Report

There are many days that we hear a lot of sounds that would not be found in an American Indian village. Today, one such day was a busy one for the Sheriff's Office. Yesterday, there was a major accident on the freeway just outside of town. The accident involved a drunk driver who was driving at a high speed. The driver had been drinking heavily and was not paying attention to the road. He crashed into several cars,造成了严重的损坏。幸運的是，没有人受伤。事故使交通中断了几个小时。官员们正在调查事故原因，以便防止类似事件再次发生。

"I have been looking forward to today because we are about to sign the most meaningful bill of this legislative session. I want to say to the voters of Texas: We heard your call and we delivered... we listened to all the parents and we delivered... this is not a Republican bill and this is not a Democratic bill, this is a bill that we could all agree on. It is a bill that is good for our state. Not only are these men great public servants, they are also decent, honorable, thoughtful, great Texans. ...Governor George Bush"

Voted against dedicating lottery revenue to our schools, against the expressed wishes of most Texans. Didn’t you think the money gained from the lottery would be used to help our public education system? Politicians in Austin said it would, and it wasn’t. More broken promises.

As a trial lawyer, Paul Sadler makes his living from big-money lawsuits and has opposed reform of the Texas civil litigation system. Paul Sadler even voted to give uninsured drivers the freedom to sue lawyers, insured drivers for excessive damages! When trial lawyers like Paul Sadler hold up lawsuit reform in the legislature, average Texans suffer through higher costs and charged courts.

Will support reform of our civil litigation system to crack down on frivolous, meaningless lawsuits and crooked lawyers who abuse our trust. Because he is not a lawyer, Gene Barron knows that lawsuit reform is crucial to restoring accountability to our courts. Gene Barron will fight for a civil justice system which all Texans can be proud of.

I have been my privilege to represent you in the Texas House of Representatives. In a state with millions of people, only 150 men and women are honored to be State Representatives. During these terms, I have sought to distinguish myself and this district. I have fought for the education of children, the rights of parents, and fair treatment of educators. I have never attacked other people while serving you — either in campaigning or in the chamber of the House of Representatives. I have a deep and abiding respect for ideas and the good faith of other people. I do not believe you elevate yourself by attacking another person. Frankly, I do not think that people who engage in such conduct deserve to be called a representative of the people. Unfortunately, this year's campaign has, once again, turned increasingly nasty and negative. My opponent and his political consultant have completely distorted my voting record and at times falsified the record. Now, they have mailed a last-minute "Wilco Horton" type ad that has absolutely nothing to do with me, my professional life, or my legislative career, and they have also criticized a campaign contribution I received over two years ago.

I have spent my entire life protecting the rights of children, and I will not tolerate even the suggestion that I would act to the detriment of those children.

F.A.C.T. stands for First Amendment Coalition of Texas. The First Amendment to the United States Constitution guarantees freedom of speech and press, the free exercise of religion, and the Establishment Clause. On September 27, 1994, the First Amendment Coalition of Texas, in a letter describing itself as a "bipartisan association representing individuals involved in First Amendment businesses in the State of Texas," contributed $250.00 to my campaign. The Texas Ethics Commission indicates that this organization was dissolved in 1994. If this organization at the time cleverly disguised and misrepresented its membership, then it and the individuals involved should be punished.

Given the history of this campaign, I don't know what kind of falsehoods or distortions will be placed in advertisements or mailed directly to your home during the last days of this campaign. They are intended only in a time when I cannot answer before the election.

I will not engage in such conduct. I stand on my work as Chairman of Public Education in the Texas House of Representative and co-author of our new education code. I respectfully ask that you now stand with me.

Paul L. Sadler
