God's House is Always Open

The Day When The Father Turned His Head
By Rev. Billy Stoffla, pastor of Northside Christian Center

One of the most difficult elements to deal with in humanity is the element of rejection. It leaves a feeling of low self-esteem, an emptiness that nothing can fill, a feeling of abandonment. Sometimes a depression can occur as a result of rejection. You may wonder why God would reject you, why He would turn His back on you. You may feel as if He has forgotten you, that He doesn't care about you. This can be a very difficult time, and it can be tempting to turn to sin as a way to get attention or to feel better. But the Bible tells us that God does care about us, and He never turns His back on us. He is always there, always available to help us. So when you feel rejected, remember that God is always there, and He loves you.
A look at what’s in store for you!

They're determined, dangerous, and not nearly as interested in rodeos as they are in the areas where they live. But don't let that stop you from enjoying the action at the Panama County Cattlemen's Association Rodeo.

Bull riding is one of the most thrilling events at the rodeo, with riders attempting to stay on the bull for as long as possible. The bull's unpredictable movements and powerful kicks make it a challenging event for both rider and bull.

Wiley, Smith share rescue duties in arena

An increasingly popular event in today’s rodeos is bull-rid ing, in which a cowboy must stay atop a bull for eight seconds before dismounting. The skills and daring required to take on a rodeo are always on display.

Rodeo is also known for its history of political correctness, as bull riders were once required to wear black, high-heeled boots, and now they can choose any color boot they please.

Speaking the lingo of the rodeo world

Rodeo animals are well taken care of.

The man experts on livestock care and management are those who do it for a living. Rodeo rodeos are filled with people who are knowledgeable and well-educated about proper livestock handling and maintenance. And few are more dedicated than participants in PRCA rodeos.

Today, rodeo is an investment. It’s most important to take care of the animals. In fact, we probably put more care of the animals than people are involved with them,” said Larry Vail of Anderson, Colo., one of the top companies in the PRCA.

Rodeo is a business, and taking care of the animals is just another step in the process.

The first thing the stockman does after a rodeo performance is to make sure the animal is taken care of. The animal is important, and the rodeo is important, but the animal comes first. The animal is the most important thing in the rodeo. The animal is the rodeo.
