Oil, gas totals increase

Pancake County oil and gas totals increase once more last year for the second year in a row, as production figures showed that the county has been seeing a steady increase in its oil and gas output. The increase in production was attributed to new drilling and development activities in the county.

In 2022, the Pancake County oil and gas production figures showed a significant increase compared to the previous year. The increase was particularly noticeable in the oil production sector, where the county recorded a 10% increase in oil production.

The total oil production for Pancake County in 2022 was 3.5 million barrels, a 10% increase from the 3.2 million barrels produced in 2021. The gas production also showed a similar trend, with 2.8 billion cubic feet produced in 2022, compared to 2.5 billion cubic feet in 2021.

The increase in production was largely due to new drilling activities and the development of new fields. The county has been attracting investment from oil and gas companies, who have been exploring and developing new fields in Pancake County.

The increase in oil and gas production is expected to have a positive impact on the local economy. It is expected to create new jobs and stimulate economic growth in the area. Additionally, the increased production is expected to generate more revenue for the county, which can be used to fund local projects and initiatives.

Harrison family loses home in fire

The Harrison family lost their home in a fire that occurred on Saturday afternoon. The family was not present at the time of the incident and there were no injuries reported.

The fire started in the kitchen area of the two-story home and quickly spread to the rest of the house. The Pancake County Fire Department was called to the scene and firefighters worked to extinguish the flames.

The cause of the fire is under investigation, but it is believed to be electrical in nature. The family lost everything in the fire, including their home and possessions.

The family is receiving support from local organizations and the community, who are helping them during this difficult time.

Pancake County Hay Show winners announced

The Pancake County Hay Show, held earlier this week at the Pancake County Fair, has announced its winners. The event is a showcase of the county's agricultural achievements and draws competitors from across the state.

The winners were announced on Saturday evening during the show's closing ceremony. The event featured a variety of classes, including hay bale stacking, hay boat pulling, and hay wagon races.

The winners were presented with ribbons and trophies, and their achievements were recognized by the Pancake County Agricultural Committee.

The event is an annual tradition in Pancake County and is a popular event among the community. It is an opportunity for agricultural producers to showcase their skills and compete against each other.

The next Pancake County Hay Show is scheduled for next year, and interested participants are encouraged to begin preparing their entries for the competition.

A Rallying Cry

by Rev. Larry Tyler, pastor
At St. Paul Presbyterian

"Now is the time for all good men to come to the aid of their country." My thoughts in the Alliance is that I find myself called to this. We need to fight this crisis. It is not enough to just sit by and watch our children be taken away from us. We need to stand up and fight for our children.

We are at a crossroads in our society. We have come to a point where we must make a decision. Do we continue to allow this crisis to continue, or do we take action to stop it?

I believe that we must take action. We must fight for our children. We must fight for our future. We must fight for our country.

We are not alone in this fight. We have the support of many people who are willing to stand up and fight for what is right.

Let us come together as a community and fight for our children. Let us stand up and fight for our future. Let us stand up and fight for our country.
