Carthage OSB plant nearing completion

By Teresa Cope
THE PANOLA WATCHMAN

Louisiana Pacific announced last week that its $28 million Carthage OSB plant will begin construction soon and that it expects to get the plant in operation by the end of this year.

"In my opinion, the re-structuring should strengthen LP's position in the South, and enhance LP's stability," commented LP President and Chief Executive Officer Ronald L. Krueger in the announcement.

Construction will begin on the Carthage facility in the near future, with an estimated completion date of the end of 1997. The plant will employ 100 people, and will produce OSB for local customers.

The announcement comes as LP continues to re-structure its operations in the South, where the company has faced increased competition and reduced profit margins.

In the announcement, Krueger said that LP is "pleased to announce the upcoming OSB plant in Carthage, which will enable us to continue to serve our customers in this competitive market.

The new plant will be located on the site of the old building, a salt mine and lumber mill that housed the old plant. The current plant was built in 1989, and has been operating at full capacity since 1990.

The OSB plant will be a significant investment for LP, and will help the company to maintain its position as a leader in the OSB market.

Dear Editor:

I learned from Larry Durman and John Durman, BHS Graduates, that the other day, at the Church, we saw a different man at the altar. It was a young man who had been brought to the altar by the Rector. We were all shocked to see a young man at the altar, as we had not seen him before. I asked Larry Durman what had happened and he told me that the young man had been brought to the altar by the Rector because he had been diagnosed with a serious illness. We were all very sad to hear this news and we wanted to do something to help him. We decided to organize a benefit concert to raise money for his medical expenses. We are planning to hold the concert on the 20th of this month and we would like to invite everyone to come and support us.

Dear Editor:

I am writing to express my deep concern about the current situation in the world. It is very difficult to believe that the world is becoming more and more divided. I think that we need to find ways to work together and to solve our problems. I am particularly concerned about the situation in the Middle East. I think that we need to find a solution to the conflict between Israelis and Palestinians. I think that we need to start a dialogue between the two sides and to work towards a peaceful solution.
