Pipeline leaks are the bane of landowners and the people of Panola County. In recent years, numerous pipeline incidents have occurred, causing great concern to landowners and local officials. These leaks can result in environmental damage and costly cleanup efforts. It is crucial for landowners to be informed about their rights and actively engage in the defense of their property. The lack of proper communication and measures to prevent pipeline incidents further exacerbates the situation.

Easter Sunday

The Easter season is a time of awakening and excitement. Spring is in the air, and new life and hope are in the air, making everything seem to come alive again. For this special holiday, young children, who may not fully understand the true meaning of Easter, should look forward to jelly beans and Easter baskets.

Easter is a good time for reflection and nurturing of our faith, and we should all be aware of how good God is to us. Attending church services and enjoying the fellowship of family and friends is important during the Easter season.

Just as we may give Easter gifts to our children, God has given to us the gift of life. God loves us so much that he gave his only begotten son to die on the cross and rise again on Easter so that we may have eternal life.

The Set of Man must be handed over to sinful men, be crucified, and, three days later rise to life.
