Sandlin urges graduates to retain positive outlook

By Sherry Keene

WASHINGTON, D.C. — Agriculture Secretary多功能性角色Michael Sandlin spoke to the New Mexico State University College of Agriculture and Life Sciences graduates last week. Sandlin addressed the group of 200 graduates and encouraged them to think about the importance of being a positive force in their communities.

"My message to all of you is to think about your role in making a difference in your communities," Sandlin said. "You have the power to make a positive impact in the lives of others, and I encourage you to do so.

Sandlin also stressed the importance of being a leader and using your education to make a difference in the world. "It is important to be a leader in your community and to use your education to make a positive impact," he said. 

Sandlin’s speech was well-received by the graduates, who were all in agreement with his message.

"I think it’s important to think about our role in making a positive impact in our communities," said one graduate.

"I think it’s important to use our education to make a difference in the world," said another.

Overall, Sandlin’s speech was well-received by the graduates, who were all in agreement with his message and were inspired to make a positive impact in their communities.

Industrial Foundation recognizes area schools

By Sherry Keene

The Industrial Foundation of New Mexico recognized area schools for their outstanding performance in science, technology, engineering, and mathematics (STEM) education.

The foundation recognized 10 schools for their excellence in STEM education, including the following:

- Los Alamos Middle School
- Santa Fe High School
- Española Valley High School
- Taos High School
- St. Michael’s High School
- Osoyoos High School
- Gila High School
- Rio Rancho High School
- Deming High School
- Carlsbad High School

The foundation praised these schools for their commitment to STEM education and their success in preparing students for future careers in these fields.

"We are proud to recognize these schools for their outstanding performance in STEM education," said工业基金的CEO. "These schools are setting a high standard for excellence in STEM education and are preparing students for success in the 21st-century workforce.

The foundation also provided grants to these schools to support their STEM programs.

Seat belt safety observed this school year

By Paul McCombs

The Panola Watchman

Parents who fail to buckle up their children may face more than the usual bonding cause of death for kids in car crashes — they will be fined.

According to the National Highway Traffic Safety Administration, children are three times more likely to die in a car crash if they are not properly restrained.

"Seat belt safety is critically important for preventing injuries and saving lives," said Paul McCombs, president of the National Child Passenger Safety Coalition. "Our goal is to educate parents and caregivers on the importance of seat belt safety and to encourage them to buckle up their kids every time they drive.

During the school year, the Coalition will conduct safety inspections at schools across the country to ensure that children are properly restrained.

"We will be looking for parents who buckle up their kids properly," said McCombs. "If we find that kids are not being properly restrained, we will issue a citation to the parent and offer them resources to help them buckle up their kids properly.

The Coalition is partnering with local law enforcement agencies to conduct these inspections.

"We are working with law enforcement agencies at the local level to conduct safety inspections and ensure that kids are properly restrained," said McCombs. "Our goal is to make sure that kids are safe on the road and that parents are taking the necessary steps to protect them.

This year, the Coalition has partnered with the National Highway Traffic Safety Administration and the National Highway Traffic Safety Administration to conduct safety inspections at schools across the country.

"We are pleased to partner with these organizations to ensure that kids are properly restrained," said McCombs. "Our goal is to make sure that kids are safe on the road and that parents are taking the necessary steps to protect them.

One of the most luxurious accommodations at the Carpenters Hotel is the Presidential Suite. The suite features a private balcony overlooking the river, a Jacuzzi, and a personal butler. The Hotel also offers a fitness center, a full-service spa, and a rooftop pool.

Pope will appear in the All-American Scholar banquet, which is scheduled for next month.

Girls who represent Northside Christian Academy at the recent junior varsitySoftball game were: Skyler Wright, Andrae Low, Amber Daniels, Caleb Blagg, and Shailly Henderson.
**College offers defensive driving classes**

The National Safety Council will hold a defensive driving class on Saturday, June 13, at 9 a.m. at the College of Nursing and Health Professions building on the campus of Pacelli College. The class is open to the public and is free of charge.

The National Safety Council is a nonprofit organization that provides education and training in safety. The defensive driving class is designed to help drivers become more aware of their driving habits and how to improve them. The class will be taught by certified instructors and will cover topics such as road safety, defensive driving techniques, and accident prevention.

**Buchanan graduates from Baylor University**

Buchanan graduates from Baylor University. Buchanan graduated with a degree in business administration.

**HorseLInent® Eases Arthritis Pain**

HorseLInent® is a natural supplement that helps to alleviate pain and inflammation in horses. It contains ingredients that have anti-inflammatory properties, including linseed oil, flaxseed, and evening primrose oil. The supplement is easy to administer and can be given to horses of all ages and sizes.

**Fears**

What would happen if your closest loved one became seriously ill? You don't have to think about this, but it happens. And sometimes, it can be quite scary. You look at it, you panic and start worrying about your future. It's all too real and it's something that we can help.
Announcing the newly designated Level 1 trauma center at ETMC Tyler

The nation's highest trauma designation: the region's top trauma center.

The State of Texas and the American College of Surgeons have awarded the nation's highest possible accreditation to ETMC's Level 1 Trauma Center. To earn the Level 1 designation, we have met the highest standards for trauma care, and in meeting these standards, we are setting new standards of care for East Texans when they need it most.

24-hour trauma surgeons on site.

We are now the only trauma center in East Texas with board-certified trauma surgeons and emergency physicians on site around the clock. That means more immediate care for trauma patients, and it’s a difference that has been proven to save lives.

Advanced technology and a full-time research team.

The ETMC Level 1 Trauma Center is equipped with advanced technology to handle all types of emergencies. And it is the only trauma center in East Texas with a dedicated research team to ensure the most current methods of care.

Trauma care that is second to none.

Thoroughly trained, ETMC's Level 1 Trauma Center is designed to handle the highest standards of health care, and we deliver them, every single day. To give the people of East Texas care that is truly second to none, ETMC's Level 1 Trauma Center gives East Texans immediate access to the highest possible level of trauma care – care that saves lives.

First in East Texas.
Second to none.
