Editorials ** Columns ** Opinions

**National nanny**

There may be no greater need of reform today than for government to reform itself. The federal government, in particular, seems to be out of control. Its actions, policies, and decisions often seem to be based on political expediency rather than on sound principles. It is time for the people to demand better from their government.

**You and your Money**

The current tax system is outdated and unfair. It favors the wealthy and imposes a heavy burden on the middle class. A fairer tax system would be one that levies a progressive tax rate, with higher income levels taxed at higher rates. Such a system would also provide tax credits for lower-income individuals and families, thereby helping them to afford the basic necessities of life.

**SENSING THE NEWS**

IRS makes to many laws

The Internal Revenue Service (IRS) has been accused of making too many laws, which are confusing and unfair. The IRS is supposed to be a service agency, not a lawmaking body. It is time for the Congress to review the IRS's power and authority, and to ensure that it is serving the public interest.

Census Bureau gets started

On 1980 head count

The Census Bureau has for the first time ever released complete, accurate population statistics for every block in the United States. The bureau said that the data will be used to determine how much federal aid is available to each state and community.

Cash King is a fun, exciting way to win big. Try your luck and see if you can win one of the many prizes available. Good luck!
In ambulance

Three injured

Three Panola County residents were injured when their vehicle hit a deer Thursday night on a forested road near the University of Texas Eastern Branch.

The accident occurred on FM 975 near the east boundary of the UT campus. The driver, a 19-year-old student from Carthage, was taken to the hospital with moderate injuries. The two passengers, a 19-year-old student from Carthage and a 20-year-old student from Jefferson, were treated at the scene and released.

A local resident who witnessed the accident said the deer was crossing the road when the vehicle hit it. The driver appeared to be under the influence of alcohol, according to the resident.

A guitar and a motorcycle were also involved in the accident, and the vehicle was totaled.
