Repeal favored

We hold that if the law is not favored for its repeal, it is because there" is no provision for it, and because the people are not aware of the necessity for it.

Lake Board concerned about bass

Fewer big ones being landed

Pamela Loucks, Cuero, writes:

Lake Frazor, east of Cuero, is one of the state's best fishing spots. But the Lake Board is concerned about the number of big bass being landed. The board has set a limit of 30 pounds of fish per day on the lake, but many anglers are still catching bass over 20 pounds. The Lake Board is considering closing the lake to bass fishing for the next three years.

Lake to ask for help with law enforcement

Pamela Loucks, Cuero, writes:

The Lake Board is seeking help from the state police to enforce regulations on the lake. The board is concerned about the number of anglers who are not following the regulations, such as catching too many fish or using illegal fishing methods. The board is also concerned about the number of fish being caught illegally, such as using a net or a cast net. The Lake Board is looking for help from the state police to enforce the regulations and keep the lake clean.

From Gary school

Superintendent resigns

The Lake Board has received a resignation from its superintendent, who has been with the board for five years. The superintendent has decided to accept a position in a different school district. The Lake Board has expressed its gratitude to the superintendent for his service and wishes him well in his new position.
