Remember

Weekly is usually a weekly reminder of the importance of family involvement in their children's education. It is crucial for parents to be actively involved in their children's education, as it is a key factor in their academic success. Parents should be encouraged to attend their children's school events and to participate in their education. It is also important for parents to communicate with their children's teachers and to be involved in their education.

Season split!

Hunters lose 15 days

The people pay

If President Carter is doing a good job, then why does it seem that people are taking more and more responsibility for the economy? Stagflation has been raging for two years. Farmers are buying a record amount of goods and services, but the cost of living is rising. The budget deficit is growing. The national debt is being serviced at a record rate.

Your Social Security

If I were married for 12 years and had been divorced for 3 years, would I be entitled to social security benefits if my former husband dies? He worked for 36 years.

I Would. I've heard this question before. It seems to be a common question. If you were married for at least 10 years, you could be eligible to receive social security benefits. If you were married for less than 10 years, your eligibility would depend on the length of your marriage.
