**Hard man to replace**

Author: Pauline Watchman

As citizens of this city and working along side the oil industry, we feel that people should not let their emotions cloud their judgment nor should they fall victim to the scare tactics being used by some. They should stop and truly look at the issue at hand, not if they do or do not want a rezoning of our city, but that Carthage has an opportunity to take a giant step forward and continue to grow with this booming industry.
