Medical record unit honored

In a pointed (sic) at the Medical Record Unit, Richard G. Rhoads, Carthage Volunteer Fire Department's fire chief, honored Sarah Moon of Carthage with the "Distinguished Service Award." The award was presented by the Medical Record Unit. Rhoads said Moon has been a "real source of assistance." The presentation was held in the Carthage Volunteer Fire Department's fire station.

Balloon accident may be first

According to Carthage police, a balloon accident that happened in the early morning hours was the first of its kind in Carthage. The balloon was deflated and landed in a field nearby. The accident occurred when the balloon was being inflated for a special event.

Moving

By Vic Parker

The audience only made a sustained audible gasp during the showing of the new movie, "The Nightmare Before Christmas," last Thursday night. The audience was so engrossed in the story that they all stood up to applaud the film's resolution.

The opening scene of the film is quite unexpected. A group of children are standing in front of the gates of their animated castle. Suddenly, a black cat runs over a wall and onto the children's path. The children are startled and run away, leading to the beginning of the movie's main plot.

As the story progresses, the children encounter a number of challenges, including a talking snowman and a ipad-controlled tree. The audience was captivated by these elements and found the characters to be both endearing and funny.

Despite the challenges, the children eventually learn that they must rely on each other and use their unique talents to save their town from the evil Mr. Jack Skellington. The audience was moved by this lesson and cheered as the children successfully thwarted Mr. Skellington's plans.

The film's conclusion was also well received. The children, now heroes, celebrate their victory and the audience applauds as they walk off into the sunset.

Overall, the audience was very pleased with the film and many reported feeling more engaged and excited about the new movie than they had been about any other film in recent memory.
