Remember when toothpaste was white?

By Vic Parker

Remember when toothpaste was white, when shaving cream was beige, when candy bars were peanut chocolate, when the radio was black? Those were some of the things we used to do and what we used to think was normal, but now it's all different. We used to live in a world where things were simple, where we didn't have to worry about so many things. Now everything is so complicated, and we have to deal with all sorts of new things. I wonder what the world will be like in the future. Will it be better or worse than what it is now? I don't know, but I hope that we can find a way to make it better.
