Disturbing Reports

In recent days there have been rather disturbing reports coming through the city's social media networks. The mayor of the city recently expressed concern about the city's crime rate, specifically the increase in burglaries and robberies. He urged residents to be more vigilant and to report any suspicious activity to the police. The city's police department has also issued a warning to residents to secure their homes and businesses and to avoid leaving valuables in plain sight.

Texas

By Vic Ross Parker

The city's economic situation seems to be improving, with more businesses opening and job opportunities increasing. However, there are still issues that need to be addressed, such as the city's infrastructure and public transportation system. The mayor has proposed a plan to improve the city's roads and bridges, but some residents are concerned about the cost.

Watchman & TMC
A COMPLETE PRINT MEDIA PACKAGE

What is TMC?
The Panola Watchman is a weekly newspaper. TMC, the Complete Print Media Package, which provides the advertising that large newspapers provide.

Published in conjunction with the Panola Watchman, TMC guarantees to place the merchant's advertisement in every paper in the county. Working from official, up-to-date Post Office data, the Watchman created a list consisting of every household in the county. Then, advertising the Watchman and the mailing list for the delivery of the TMC, the Watchman, in turn, sends the mailing list for the delivery of the TMC, the Watchman.

Each week the TMC will be mailed to households and delivered as a regular section of the Panola Watchman. Each edition of the TMC will contain display advertising from merchants and businesses interested in reaching the Panola County merchant's potential customer.

Unlike a shopper, the Watchman's TMC will reach every home in the county, and will be placed in the mail for delivery, and not on the newsstand or in a newspaper rack.

The TMC will be an attractive, interesting product designed to entice the reader's attention and to catch the eye of the merchant's advertisement as well as the reader.

The initial edition of the TMC contains a complete guide to bargains for customers. Look through the TMC to save money and time by patronizing the merchants and businesses in Panola County that are interested in reaching you directly.

Panola County is a healthy, vital and booming part of East Texas, and the Watchman/TMC is an advertising vehicle designed to meet that performance by providing the kind of genuine results and services that merchants need and deserve.

This complete and competitive TMC package is designed to give the merchants in Panola County a complete print media package. The Watchman—Panola Watchman—the newspaper people prefer, plus Total Market Coverage.

Dear Reader,

Thank you for taking a look at the Panola Watchman's new advertising idea—the TMC, or Total Market Coverage. This concept combines the best of two worlds—the world of the advertiser and the world of the reader.

As you peruse the pages of this issue of the TMC, you will find that we have carefully selected the best advertising vehicles to create the kind of results that you have come to expect from the Panola Watchman. We are proud to present this new package to you as we continue to serve the needs of the community.

Some of you may receive a copy of the TMC in your mail this week. Others, if you read the newspaper this week, will find that the TMC is an exciting new addition to the newspaper.

If you find that you prefer to subscribe to the TMC, please fill out the form on this page and mail it in. This will ensure that you receive the TMC in your mailbox each week.

Sincerely,
