Christmas movie, Santa here Saturday

Thirty Years Ago on the Panola County Watchman:

An open letter to Santa:

Mrs. Edith Adams of West Point, Ga.

Dear Santa,

I am writing this letter to ask you for a special Christmas gift. I have been good all year and I would like to receive a New Year's present as well.

I would like to receive a New Year's present as well. I would like a new bicycle, a new doll, and a new book. These are the things that I have been wanting for a long time.

Thank you for considering my request. I hope that you will be able to fulfill my wish. I promise to be good next year as well.

Sincerely,

[Signature]

Foreign Investors must report

Country transaction

Foreign investors who have bought or sold agricultural land in Arkansas are required to file a report with the Agriculture Department. The Department of Agriculture and Consumer Services is responsible for recording these reports in the state registry. If a transaction involving agricultural land is not recorded, it may not be protected by applicable laws. The Department encourages foreign investors to report their transactions promptly to ensure proper recording and protection of their interests.

Despite poor shooting

Ponies come back to bury Dragons

By TED LEACH

Nelson County's southernmost county, Nelson County, fully expected a strong defense and tough shooting, but the Dragons were prepared for a strong defense and tough shooting. However, the Dragons surprised the Ponies with a strong defense and a masterful shooting performance.

The defense was so effective that the Ponies found it difficult to get past the Dragons' defense. The Dragons, on the other hand, made it easy for themselves by hitting shot after shot.

The Ponies were outscored by the Dragons in the first half, but they managed to make a comeback in the second half. Their defense and shooting combined to help them win the game.

Despite the challenging conditions, the Ponies were able to secure their victory. Their strong defense and shooting made it a difficult game for the Dragons, who couldn't find a way to overcome the Ponies' defense.

The Ponies' success in the game highlights the importance of defense and shooting in basketball. The Dragons' inability to perform well in both aspects of the game contributed to their defeat.

Paris surprises Fillies in TEC opener

By TED LEACH

In the TEC opener, the Paris Fillies came out on top against the Fillies from the rival school. The Fillies surprised the crowd with their performance, winning the game by a narrow margin.

The Fillies dispersion was crucial in securing their victory. Paris scored the final goal of the game, which proved to be the game-winner.

The Fillies' dispersion was particularly effective in the final quarter. The team scored 15 points in the quarter, which was enough to secure the win.

Paris's dispersion strategy was perfect. The team used a combination of fast breaks and strategic positioning to outmaneuver the Fillies. Their defense was also a key factor in their success.

The Fillies were outmatched in the game, and their dispersion was not enough to overcome the Fillies' strategy. Paris's dispersion was too strong, and the Fillies couldn't find a way to respond.

Paris's dispersion strategy was a testament to the team's skill and determination. The Fillies were no match for the Fillies' strategy, and the Fillies were able to secure their victory in the game.
