

Course Syllabus

RNSG 2261 Clinical II

Catalog Description: A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

Prerequisites: Admission to the nursing program or administrative approval; successful completion of all first semester ADN concept base curriculum courses

Co-Requisites: RNSG 1533, 1126

Semester Credit Hours: 2

Lecture Hours per Week: 0

Lab Hours per Week: 12

Contact Hours per Semester: 192

State Approval Code: CIP 51.3801

Class section meeting time: See Canvas course for meeting days and times.

Alternate Operations During Campus Closure: In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College's website (www.panola.edu) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

Instructional Goals and Purposes: The purpose of this course is to apply specialized nursing theory, skills, and concepts under direct supervision.

Learning Outcomes:

1. Apply nursing theory, concepts and skills in clinical situations involving specialized material, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry.
2. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

Specific Course Objectives (includes SCANS):

After studying all materials and resources presented in the course, the student will be able to:

<p>Average Score:</p>	
<p>The points for these items are the student’s scores on these assignments & faculty’s observations.</p> <ul style="list-style-type: none"> • 4 = consistently performs at an independent level. Meets the described objectives with self-direction. 90-100% on assignments • 3= demonstrate consistent performance and improvement. Needs minimal guidance to meet described objectives. 80-90% on assignments. • 2= Satisfactory/safe level of performance. Meets objectives with consistent guidance. 75-79% on assignments • <2= Unsatisfactory/Unsafe. Level of performance does not meet standards. Unable to meet objectives without frequent, direct, intensive guidance and instruction to avoid errors. This includes submitting late assignments, substandard assignments, failure to submit assignments and inconsistent performances from week to week 74.99% or less, late assignments and failure to submit assignments 	

<p>*These objectives are critical elements. A student must achieve a minimum score of 2 on ALL of the critical elements. A score of <2 is Unsatisfactory/Unsafe and may/will result in immediate termination of the clinical experience and/or failure of the course.</p>

Final grade:

A: 3.5-4

B: 2.5-3.49

C: 2-2.49

F: <2

Course Requirements:

1. Students are accountable to policies outlined in the Panola College ADN Handbook and student nursing practice as defined by the Texas Board of Nursing and ANA.
2. All lab hours in simulation or in direct patient care for this course will be viewed as required clinical hours for the semester and ADN program.
3. Complete all assignments associated with clinical experiences as instructed by the clinical instructor through Canvas. All assignments must demonstrate college-level skills. Sources must be documented using American Psychological Association (APA) guidelines.
4. Due dates and instructions for all assignments will be accessed through the Canvas course.
5. Students are required to achieve 100% pass rate on the level II dosage calculation exam. Please see Panola College ADN Handbook section 5.5.
6. Students are required to complete a self-evaluation based of level II learning outcomes at midterm and at the end of the semester.
7. Students will be evaluated using the following clinical evaluation tool based on level II learning outcomes at midterm and at the end of the semester. See grading criteria located at the end of the clinical evaluation tool.
8. In the event of an emergency or announced campus closure due to a natural disaster or pandemic and instruction changes to follow alternate operations, students will be required to join and participate in ZOOM classes at scheduled class time for the semester. Students will complete and submit all online assignments as instructed through the Canvas course.

Course Content:

A general description of lecture/discussion topics included in this course are listed in the Learning Outcomes / Specific Course Objectives sections of this syllabus.

Methods of Instruction/Course Format/Delivery:

This course is offered in a simulated and/or clinical setting. Recorded ZOOM lectures or simulations will be subject to publication on the Canvas course.

Major Assignments / Assessments:

The following items will be assigned and assessed during the semester and used to calculate the student's final grade.

Assignments

- See clinical evaluation tool

Assessment(s):

- See clinical evaluation tool

Course Grade:

The grading scale for this course is as follows:

- Clinical evaluation tool – 85%
- Written assignments – 15%

Concept maps and plans of care are evaluated in written assignments AND on the clinical evaluation tool. A student MUST earn an average of 75 or greater on concept maps and plans of care in order to successfully complete the course.

SCANS CRITERIA

1) **Foundation skills are defined in three areas: basic skills, thinking skills, and personal qualities.**

- a) **Basic Skills:** A worker must read, write, perform arithmetic and mathematical operations, listen, and speak effectively. These skills include:
 - i) Reading: locate, understand, and interpret written information in prose and in documents such as manuals, graphs, and schedules.
 - ii) Writing: communicate thoughts, ideas, information, and messages in writing, and create documents such as letters, directions, manuals, reports, graphs, and flow charts.
 - iii) Arithmetic and Mathematical Operations: perform basic computations and approach practical problems by choosing appropriately from a variety of mathematical techniques.
 - iv) Listening: receive, attend to, interpret, and respond to verbal messages and other cues.
 - v) Speaking: Organize ideas and communicate orally.
- b) **Thinking Skills:** A worker must think creatively, make decisions, solve problems, visualize, know how to learn, and reason effectively. These skills include:
 - i) Creative Thinking: generate new ideas.
 - ii) Decision Making: specify goals and constraints, generate alternatives, consider risks, and evaluate and choose the best alternative.
 - iii) Problem Solving: recognize problems and devise and implement plan of action.
 - iv) Visualize ("Seeing Things in the Mind's Eye"): organize and process symbols, pictures, graphs, objects, and other information.
 - v) Knowing How to Learn: use efficient learning techniques to acquire and apply new knowledge and skills.
 - vi) Reasoning: discover a rule or principle underlying the relationship between two or more objects and apply it when solving a problem.
- c) **Personal Qualities:** A worker must display responsibility, self-esteem, sociability, self-management, integrity, and honesty.
 - i) Responsibility: exert a high level of effort and persevere toward goal attainment.
 - ii) Self-Esteem: believe in one's own self-worth and maintain a positive view of oneself.
 - iii) Sociability: demonstrate understanding, friendliness, adaptability, empathy, and politeness in group settings.
 - iv) Self-Management: assess oneself accurately, set personal goals, monitor progress, and exhibit self-control.
 - v) Integrity and Honesty: choose ethical courses of action.

2) **Workplace competencies are defined in five areas: resources, interpersonal skills, information, systems, and technology.**

- a) **Resources:** A worker must identify, organize, plan, and allocate resources effectively.
 - i) Time: select goal-relevant activities, rank them, allocate time, and prepare and follow schedules.
 - ii) Money: Use or prepare budgets, make forecasts, keep records, and make adjustments to meet objectives.
 - iii) Material and Facilities: Acquire, store, allocate, and use materials or space efficiently. Examples: construct a decision time line chart; use computer software to plan a project; prepare a budget; conduct a cost/benefits analysis; design an RFP process; write a job description; develop a staffing plan.
- b) **Interpersonal Skills:** A worker must work with others effectively.
 - i) Participate as a Member of a Team: contribute to group effort.
 - ii) Teach Others New Skills.
 - iii) Serve Clients/Customers: work to satisfy customer's expectations.

- iv) **Exercise Leadership:** communicate ideas to justify position, persuade and convince others, responsibly challenge existing procedures and policies.
- v) **Negotiate:** work toward agreements involving exchange of resources, resolve divergent interests.
- vi) **Work with Diversity:** work well with men and women from diverse backgrounds.

Examples: collaborate with a group member to solve a problem; work through a group conflict situation, train a colleague; deal with a dissatisfied customer in person; select and use appropriate leadership styles; use effective delegation techniques; conduct an individual or team negotiation; demonstrate an understanding of how people from different cultural backgrounds might behave in various situations.

- c) **Information:** A worker must be able to acquire and use information.

- i) **Acquire and Evaluate Information.**
- ii) **Organize and Maintain Information.**
- iii) **Interpret and Communicate Information.**
- iv) **Use Computers to Process Information.**

Examples: research and collect data from various sources; develop a form to collect data; develop an inventory record-keeping system; produce a report using graphics; make an oral presentation using various media; use on-line computer data bases to research a report; use a computer spreadsheet to develop a budget.

- d) **Systems:** A worker must understand complex interrelationships.

- i) **Understand Systems:** know how social, organizational, and technological systems work and operate effectively with them.
- ii) **Monitor and Correct Performance:** distinguish trends, predict impacts on system operations, diagnose deviations in systems' performance and correct malfunctions.
- iii) **Improve or Design Systems:** suggest modifications to existing systems and develop new or alternative systems to improve performance.

Examples: draw and interpret an organizational chart; develop a monitoring process; choose a situation needing improvement, break it down, examine it, propose an improvement, and implement it.

- e) **Technology:** A worker must be able to work with a variety of technologies.

- i) **Select Technology:** choose procedures, tools or equipment including computers and related technologies.
- ii) **Apply Technologies to Task:** understand overall intent and proper procedures for setup and operation of equipment.
- iii) **Maintain and Troubleshoot Equipment:** Prevent, identify, or solve problems with equipment, including computers and other technologies.

Examples: read equipment descriptions and technical specifications to select equipment to meet needs; set up and assemble appropriate equipment from instructions; read and follow directions for troubleshooting and repairing equipment.
