Class section meeting time:

Alternate Operations During Campus Closure: In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College's website (www.panola.edu) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

Core Components and Related College Student Learning Outcomes

This course counts as part of the academic requirements of the Panola College Core Curriculum and an

Associate of Arts or Associate of Science degree. Yes No: If no, skip to Instructional Goals.

The items below marked with an X reflect the state-mandated outcomes for this course **IF this is a CORE course:**

- Critical Thinking Skills – to include creative thinking, innovation, inquiry and analysis, evaluation and syntheses of information
 - CT1: Generate and communicate ideas by combining, changing, or reapplying existing information
 - CT2: Gather and assess information relevant to a question
 - CT3: Analyze, evaluate, and synthesize information
- Communication Skills – to include effective development, interpretation, and expression of ideas through written, oral, and visual communication
 - CS1: Develop, interpret, and express ideas through written communication
 - CS2: Develop, interpret, and express ideas through oral communication
 - CS3: Develop, interpret, and express ideas through visual communication
- Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions
 - EQS1: Manipulate and analyze numerical data and arrive at an informed conclusion
 - EQS2: Manipulate and analyze observable facts and arrive at an informed conclusion
- Teamwork – to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
 - TW1: Integrate different viewpoints as a member of a team
 - TW2: Work with others to support and accomplish a shared goal
- Personal Responsibility – to include the ability to connect choices, actions, and consequences to ethical decision-making

Instructional Goals and Purposes:

DRAM 1330: The purpose of this course is study and application of the methods and components of theatrical production which may include one or more of the following: theater facilities, scenery construction and painting, properties, lighting, costume, makeup, sound, and theatrical management.

DRAM 2330: Continued study and application of the methods and components of theatrical production which may include one or more of the following: theater facilities, scenery construction and painting, properties, lighting, costume, makeup, sound and theatrical management.

Learning Outcomes: [from the ACGM catalog]

After studying all materials and resources presented in the course, the student will be able to:

1. Apply an expanded vocabulary and knowledge of the environment, tools, and skills required to mount a theatrical production.
2. Demonstrate increased knowledge of the variety of work required to mount a theatrical production.
3. Describe in depth the collaborative nature of production within theatre arts.

Course Content:

A general description of lecture/discussion topics included in this course are listed in the Learning Objectives section of this syllabus.

Students in all sections of this course will learn the following content:

1. Continued safety practices in a theatre environment including onstage, in the shop, and for audience.
2. An expanded role of analysis for design in the theatrical process.
3. Employ skills in the various fields and roles of theatrical designers, technicians, and crew
4. Use of Theatre terminology as applied in Stagecraft.
5. Application of the theories and functions of set design.
6. Application of the types and functions of lighting design.
7. Demonstrate through practice the importance of drawings/renderings and model construction in the theatrical process.
8. Apply and demonstrate the various lighting and sound instruments and their uses.
9. Advanced design and application of design work through workable set renderings and models for a theatrical production.
10. Design and execute workable lighting plots and sound plots for a theatrical production.

Methods of Instruction/Course Format/Delivery: Lecture, class participation with hands-on experience, and through Canvas. Please note this class requires some heavy physical activities, as well as working at heights, with lighting instruments, and power tools.

Major Assignments / Assessments:

The following items will be assigned and assessed during the semester and used to calculate the student's final grade.

Assignments

1. Physical Demonstration of various skills
2. Discussions
3. Project-based work

Assessment(s):

1. Written Exams and Quizzes
2. Research Projects
3. Portfolio
4. Participation
5. Class Attendance

Course Grade:

The grading scale for this course is as follows:

- Exams & Quizzes –25%
- Skill Demonstration –25%
- Participation and attendance– 25%
- Portfolio – 25%
