Stacey Silverman, PhD
Assistant Commissioner
Academic and Health Affairs
Texas Higher Education Coordinating Board
P. O. Box 12788
Austin, Texas 78711

Dear Dr. Silverman:

I certify as president/chancellor, that Panola College is currently in compliance with Texas Education Code, Section 51.9193 (House Bill 2895, 85th Legislature, Regular Session). The statute requires a visible link on an institution's home website with a link to the webpage with information regarding the mental health resources available to students.

The webpage must be dedicated solely to information regarding the mental health resources available to students and provide the address and other contact information of the nearest mental health authority where students can obtain services, regardless if the resources are provided by the institution or another organization.

The president/chancellor of each institution, or their designee, must certify to the Coordinating Board the institution is in compliance each year.

(Signed)
