AGRI 2330 – Wildlife Conservation and Management

**Catalog Description:** Principles and practices used in the production and improvement of wildlife resources. Aesthetic, ecological, and recreational uses of public and private lands.

**Lecture hours = 3, Lab hours = 0**

**Prerequisites:** None

**Semester Credit Hours:** 3  
**Lecture Hours per Week:** 3  
**Lab Hours per Week:** 0  
**Contact Hours per Semester:** 48  
**State Approval Code:** THECB 03.0601.51.01

**Core Components and Related College Student Learning Outcomes**  
This course counts as part of the academic requirements of the Panola College Core Curriculum and an Associate of Arts or Associate of Science degree. ☐ Yes ☐ No: If no, skip to Instructional Goals.

The items below marked with an X reflect the state-mandated outcomes for this course **IF this is a CORE course:**

- [ ] Critical Thinking Skills – to include creative thinking, innovation, inquiry and analysis, evaluation and syntheses of information  
  - CT1: Generate and communicate ideas by combining, changing, or reapplying existing information  
  - CT2: Gather and assess information relevant to a question  
  - CT3: Analyze, evaluate, and synthesize information

- [ ] Communication Skills – to include effective development, interpretation, and expression of ideas through written, oral, and visual communication  
  - CS1: Develop, interpret, and express ideas through written communication  
  - CS2: Develop, interpret, and express ideas through oral communication  
  - CS3: Develop, interpret, and express ideas through visual communication

- [ ] Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions  
  - EQS1: Manipulate and analyze numerical data and arrive at an informed conclusion  
  - EQS2: Manipulate and analyze observable facts and arrive at an informed conclusion

- [ ] Teamwork – to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal  
  - TW1: Integrate different viewpoints as a member of a team
TW2: Work with others to support and accomplish a shared goal

Personal Responsibility – to include the ability to connect choices, actions, and consequences to ethical decision-making

PR1: Evaluate choices and actions and relate consequences to decision-making

Social Responsibility – to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities

SR1: Demonstrate intercultural competence
SR2: Identify civic responsibility
SR3: Engage in regional, national, and global communities

Instructional Goals and Purposes: The purpose of this class is to introduce students to the complex field of animal science.

Learning Outcomes: [from the ACGM catalog]

After studying all materials and resources presented in the course, the student will be able to:

1. Explain basic ecological principles of population dynamics, habitat, succession, and Ecosystems.
2. Describe how these ecological principles can be applied to manage wildlife populations and habitats.
3. Contrast wildlife management strategies for different purposes.
4. Use critical thinking and scientific problem-solving to make informed decisions about wildlife and natural resources management strategies.
5. Discuss the impact of current trends and societal issues on wildlife and increased demands on natural resources.

Course Content:

Students in all sections of this course will be required to do the following:

1. Explain the importance of wildlife conservation and management.
   1. Recount events that have influenced the history of wildlife conservation and management.
   2. Discuss classification schemes for wildlife.
2. Explain the basic concepts of population dynamics, rate of increases in populations, and population growth.
   1. Discuss the effects of overpopulation and controlled hunting.
   2. Discuss carrying capacity.
   3. Discuss the concept of population density.
3. Have an understanding of predation and wildlife diseases.
   1. Discuss the impact of disease on the wildlife population.
   2. Distinguish between various types of predation.
   3. Discuss diseases that affect wildlife.
4. Have an understanding of wildlife nutrition and wildlife habitat in relation to nutrition.
   1. Discuss the impact nutrition has on the health of the wildlife population.
   2. Discuss starvation.
   3. Discuss the importance of vitamins and minerals in the diet of wildlife.
4. Discuss the role water plays in the life of wildlife.
5. Discuss accessibility of physical and biological components of a habitat.
5. Have an understanding of the economics involved in wildlife management in the 21st century.
1. Determine influential people in the area of economics as it pertains to wildlife management.
2. Discuss the economic value of wildlife.
3. Determine the wildlife regulating agencies and their role.

Methods of Instruction/Course Format/Delivery: Content for the course will be delivered using lecture, textbook content and online instruction. Students in traditional, hybrid and Internet classes will have access to courses via Canvas. Students in the traditional class will meet regularly for lecture. Students in the Internet class will be required to take quizzes and exams at an approved testing facility or, they may also be administered by the instructor. Students in hybrid classes will have both in class and online assignments.

Assessment:
The following items will be assigned during the semester and used to calculate the student’s final grade:

- **Quizzes and Assignments**
  - Students will read the required material and complete quizzes and assignments over the content. The ability to makeup late quizzes and assignments will be determined by the instructor for a reduced score.

- **Tests**
  - In the online section the midterm and the final will be given in the Testing Center locations only. Students are only allowed ONE makeup test due to an excused absence per semester with the approval of the instructor.

- **Final Exam**
  - The Final Exam will be cumulative. In the online section the Final will be given in the Testing Center locations only.

Course Grade:
The grading scale for this course is as follows:

- Quizzes and Assignments – 25%
- Tests – 50%
- Final Exam – 25%

Grading Notes:

**Missed Exams:** Missed exams due to an excused absence should be scheduled with the instructor within one week of the missed exam. It is the responsibility of the student to reschedule the makeup with the instructor. The Instructor reserves the right to change the test format of any makeup.

In the event of an unexcused absence on the day of a quiz or exam the student will **not** be able to make up the exam.
You will only be able to make up **ONE** exam due to an excused absence. If you miss more than one exam for any reason you will not be able to make it up.

**NO MAKEUP WORK WILL BE ACCEPTED DURING FINALS WEEK**

**Missed Quizzes and Assignments:** Missed quizzes and assignments due to an excused absence should be rescheduled within one week of the scheduled quiz or a date assigned by the Instructor. It is the responsibility of the student to reschedule makeup quizzes. The Instructor reserves the right to change the test format of the makeup quiz.

Late work for an unexcused absence: There will be a 10 point reduction in the score if the assignment is turned in after the listed due date and time. (Example: The assignment is due at 1 pm and you submit it at 4 pm you will receive a 10 point deduction from the original score.) There will also be a 10 point deduction for everyday the assignment is late. (Example: If you turn the assignment in 3 days late you will receive a 30 point deduction from your original score.)

**NO MAKEUP WORK WILL BE ACCEPTED DURING FINALS WEEK**

**Attendance:** Attendance is based on the student missing no more than 10% out of the semester without proof of an excused absence. After the 10% the instructor may withdraw the student at their discretion. Any student thirty or more minutes late will be counted absent. Students that leave before class is dismissed will be counted absent.

You will also be expected to show up to class on time each day! After accumulating three tardies, each tardy will count as an unexcused absence.

**Excused absences are those due to a pre-approved school sponsored trip, a death in the family (you will need a funeral pamphlet) or a sickness (in which case a doctor’s note is required).**

For face-to-face classes that meet once a week:

**Attendance will be mandatory.** Roll will be taken at the beginning of every class. At the end of the semester, any student who has **two unexcused absences** will be penalized **one letter grade**. If a student accumulates **three or more unexcused absences**, the grade for the class will be an automatic “F”.

Cheating: Cheating on a test shall include:

a. Copying from another student’s test

b. Using test materials not authorized by the person administering the test
c. Collaborating with or seeking aid from another student during a test without permission from the test administrator

d. Knowingly using, buying, selling, stealing, or soliciting, in whole or in part, the contents of an unadministered test.

e. The unauthorized transporting or removal, in whole or in part, of the contents of the unadministered test.

f. Substituting for another student, or permitting another student to substitute for one’s self, to take a test.

g. Bribing another person to obtain an unadministered test or information about an unadministered test. Absolutely no cheating is tolerated.

Cheating in this course will not be tolerated and will result in an “F” for the course.

Class Conduct: All cell phones should be turned off and put away in all classes. If you must receive a call notify your instructor before class begins and step out of the classroom. The use of cell phones (texting, calls, internet, etc.) during class will result in 5 points being taken from the students Test grade for every offense.

Asking of questions and discussion of relevant information in and outside class is highly encouraged; however, talking to neighbors, texting, sleeping, foul language or studying for other courses during class time will not be tolerated.

Grading Scale: A=90-100, B=80-89, C=70-79, D=60-69, F=59 and below

A student that chooses to NOT finish the course must complete the withdrawal procedure in the Student Success office in order to receive a —W. || Otherwise, the student will receive a grade at the end of the semester commensurate with the work completed.

Students needing special classroom or testing accommodations because of physical or learning disabilities must contact the Student Success office before these services will be made available in the classroom.

Texts, Materials, and Supplies:

Textbook:
Wildlife Management & Conservation: Contemporary Principles and Practices

• You will need to purchase the textbook as everything we do (lectures, exams, quizzes, assignments, etc.) will come directly from the book.

Required Readings:
• The Textbook
• Other readings and videos as posted on Canvas

Other:
• For current texts and materials, use the following link to access bookstore listings: http://www.panolacollegestore.com
• For testing services, use the following link: http://www.panola.edu/elearning/testing.html
• If any student in this class has special classroom or testing needs because of a physical learning or emotional condition, please contact the ADA Student Coordinator in Support Services located in the Administration Building or go to http://www.panola.edu/student-success/disability-support-services/ for more information.
• Withdrawing from a course is the student’s responsibility. Students who do not attend class and who do not withdraw will receive the grade earned for the course.
