Course Syllabus

ELPT 1325 – National Electrical Code

Catalog Description: An introductory study of the National Electric Code (NEC) for those employed in fields requiring knowledge of the Code, with emphasis on wiring design, protection, methods and materials, equipment for general use, and basic calculations.

Lecture hours = 3, Lab hours = 0

Prerequisites: None

Semester Credit Hours: 3
Lecture Hours per Week: 3
Lab Hours per Week: 0
Extended hours:
Contact Hours per Semester: 48

State Approval Code: 46.0301

Class section meeting time:

Alternate Operations During Campus Closure: In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College’s website (www.panola.edu) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

Instructional Goals and Purposes: The purpose of this course is to locate and interpret the sections in the NEC pertaining to electrical installations; calculate the size of conductors, boxes, raceways, and overcurrent protective devices for branch circuits supplying electrical equipment, calculate conductor size, overcurrent protection for service equipment as applied to building services and compute the size of branch circuits, feeders and equipment for motors.

Learning Outcomes:
1. Brief history of the National Electrical Code.
2. Definitions and Terminology.
4. Cables.
5. Raceways and Conductors.
8. Load Calculations: One-Family Dwellings.
12. Services, Feeders, and Equipment

Specific Course Objectives (includes SCANS):
After studying all materials and resources presented in the course, the student will be able to:

1. Briefly discuss the history of the National Electrical Code. SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C-ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Identify the catalyst that brought about the National Electrical Code (NEC).
   b. Discuss how the NEC began and the purpose of the NEC.
   c. Understand how changes to the Code evolve.
   d. Know what type of information is found within the NEC (layout).
   e. Understand the NEC’s concern with equipment and material standards.
   f. Recognize various trademark logos that denote listed and labeled products.
   g. Comprehend the role of nationally recognized testing laboratories (NRTL) and the National Electrical Manufacturers Association (NEMA) as well as the expanded role of the National Fire Protection Association (NFPA).
   h. Recognize that electrical requirements in addition to the NEC may exist and if so, that compliance is required.

2. Definitions and Terminology. SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv, 1 C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C-ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Know the meaning of the term accessible when applied to (1) wiring methods and (2) when applied to equipment.
   b. Know the four categories of branch circuits and be able to list their differences.
   c. Know the correct definitions of words and phrases found in Article 100, which are crucial to the installation of a hazard-free electrical system.
   d. Determine whether a load is continuous or noncontinuous.
   e. Know the difference between branch-circuit conductors and feeder conductors.
   f. Know the terminology associated with grounded and grounding.
   g. Give examples of damp, dry, and wet locations.
   h. Determine which conductors are neutral conductors.
   i. Comprehend the electrical vocabulary associated with the word service.
   j. Understand that the authority having jurisdiction (AHJ) could provide special permission, which is defined as written consent.

3. Boxes and Enclosures. SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv, 1 C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C-ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Perform box fill calculations.
   b. Understand additional markings on boxes.
   c. Describe the general installation requirements for boxes.
   d. Describe box and luminaires support requirements.
   e. Size junction and pull boxes.
   f. Be able to determine the cubic-inch capacity of boxes (metal and nonmetallic) when installing 6 AWG and smaller conductors.
g. Understand calculation procedures for junction boxes containing 4 AWG and larger conductors.

4. **Cables.** SCANS (1 A-I, 1A-ii, 1A=iv, 1B-iii, 1B-iv, 1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Explain conductor identification and the permissible re-identification of certain conductors.
   b. Discuss grounded conductor provided for the future.
   c. Discuss underground installations for both direct burial and raceway protected conductors and cables.

5. **Raceways and Conductors.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv, 1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. General Provisions
   b. Determine raceway fill.
   c. Explain conductor identification and the permissible re-identification of certain conductors.
   d. Discuss grounded conductor provided for the future.
   e. Discuss underground installations for both direct burial and raceway protected conductors and cables.

6. **General Provisions: One-Family Dwellings.** SCANS (1 A-I, 1A-ii, 1A=iv, 1B-iii, 1B-iv, 1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Electrical floor plan.
   b. Branch Circuits.
   c. Receptacles.
   d. Receptacle replacements.
   e. Receptacles requiring AFCI protection.
   f. Other considerations when replacing receptacles
   g. Lighting and switching
   h. Outdoor receptacles and lighting.

7. **Specific Provisions: One-Family Dwellings.** SCANS (1 A-I, 1A-ii, 1A=iv, 1B-iii, 1B-iv, 1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Kitchens, Dining Rooms, and Breakfast Rooms.
   b. Bathrooms.
   c. Clothes Closets.
   d. Basements and Garages.
   e. Basements and Garages.
   f. Laundry Areas.
   g. Attic and Crawl Spaces.

8. **Load Calculations: One-Family Dwellings.** SCANS (1 A-I, 1A-ii, 1A=iv, 1B-iii, 1B-iv, 1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Compiling information essential to Load Calculations.
   b. Standard method.
   c. Optional method.

9. **Services and Electrical Equipment: One-Family Dwellings.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv,1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   b. Service and Outside Wiring Clearances.
   c. Working Space Around Equipment.
   d. Service Equipment and Panelboards.
   e. Grounding.
10. **General Provisions: Commercial Locations.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv,1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Branch Circuits
   b. Receptacles.
   c. Lighting.

11. **Non-dwelling Load Calculations.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv,1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Non-dwelling load calculations.
   c. Sample Load Calculation: Store.

12. **Services, Feeders, and Equipment: Commercial Locations.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv,1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Clearances and Working Space.
   b. Switchboards, Switchgear, and Panelboards.
   c. Separately Derived Systems.
   d. Busways.

13. **General Provisions: Commercial Locations.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv,1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Branch Circuits
   b. Receptacles.
   c. Lighting

14. **Hazardous Locations.** SCANS (1 A-I, 1A-ii, 1A-iv, 1B-iii, 1B-iv,1C-I, 1C-iv, 2A-I, 2A-iii, 2B-I, 2C-i, 2C- ii, 2C-iii, 2D-ii, 2D-iii, 2E-ii)
   a. Class I Locations.
   b. Class II Locations.
   c. Class III Locations.

  ● **Course Content:**

A general description of lecture/discussion topics included in this course are listed in the Learning Objectives / Specific Course Objectives sections of this syllabus.

Students in all sections of this course will be required to do the following:

1. Students will study assigned materials and complete quizzes and exams to assess understanding and comprehension.

2. Students will complete all lab assignments as scheduled and all students are required to wear Personal Protective Equipment (PPE) in the lab.

  ● **Methods of Instruction/Course Format/Delivery:**

Students in traditional, hybrid and Internet classes will have access to courses via Canvas. Students in the traditional class will meet regularly for lectures. Students in the Internet class will be required to take quizzes and exams at an approved testing facility or, they may also be administered by the instructor.
Students in hybrid classes will have both in-class and online assignments. Hybrid classes are required to read the assigned material, take quizzes and exams as assigned by the instructor, and complete assigned homework prior to meeting for the face to face labs. Resources for this course, provided through Canvas, include the following Sections in Canvas:

- Modules: Chapter study materials, self-assessment exercises, quizzes and exams
- Announcements and Recent Activities List: Instructor Announcements
- Inbox: Email (to communicate with instructor and classmates inside Canvas)
- Grades: Student grades
- Other sections, as assigned by the Instructor: Students in both the traditional and Internet classes should use the People feature within Canvas (includes Canvas Email) to communicate with the instructor. Using Canvas Email located in the “Inbox” menu gives the student access to the instructor and other classmates without having to remember or type email addresses; the student just selects a name from the list. The instructor will attempt to respond to all Canvas email within 24 hours. For example, if a student makes an appointment with the instructor through Canvas email to take an exam, the instructor will reply to the student’s Canvas email – if the instructor does not reply within the time needed, call the instructor’s at his or her office. Please, always include in the subject line of the Canvas email, the student’s name, course number, and course section number.

**Major Assignments / Assessments:**

The following items will be assigned and assessed during the semester and used to calculate the student’s final grade.

- **Lab Exercises**
  
  Hands-on lab exercises will be conducted with one or more students in a group, full participation and demonstration of the skills are required in order to pass the skill and move to the next.

- **Exams**
  
  Multiple exams may be given during the semester with the final exam being cumulative in one or two parts will assess the student’s various skills and may include lab exercises.

- **Attendance**
  
  Students are expected to attend face to face classes and labs and be on time. Students are also required to participate with other students during class exercises. Attendance is based on the student missing no more than 10% out of the semester without a valid excuse. After the 10%, the instructor will withdraw the student from the course. Any student thirty or more minutes late will be counted absent. Students that leave before class is released will be counted absent.
• **Quizzes**

After working through the chapter or chapters and completing the assignments, the student will take online or paper quizzes over the chapters studied. Quizzes will generally contain True/False, Multiple Choice, Matching and/or Fill In-The-Blank questions.

• **Lab Exercises**

Weekly lab exercises and or assignments will be administered during face to face meetings as assigned by the instructor.

• **Course Grade:**

The grading scale for this course is as follows:

**Category Percentage:**

- Unit Quizzes 30%
- Competency Test 30%
- Exams 40%

• **Grading Notes:**

Late Work: All listed assignments are due according to the due date provided in Canvas and on the course calendar if you do not complete the assignments on time a 5% per day penalty will automatically be applied to all assignments. If you have missed an assignment due to an approved class absence please contact your instructor for further instructions.

Missed Exams: Missed exams due to legitimate reasons should be taken prior to the reporting of a midterm or final grade as applicable. It is the responsibility of the student to reschedule the makeup with the instructor. The Instructor reserves the right to change the test format of any makeup. Instructors are not required to issue makeup work for an unexcused class absence. Instructor also reserves the right to give full or partial credit for any makeup work that is allowed and that resulted from an unexcused absence.

Missed Quizzes: Missed quizzes due to legitimate reasons should be rescheduled within one week of the scheduled quiz or a date assigned by the Instructor. It is the responsibility of the student to reschedule makeup quizzes. The Instructor reserves the right to change the test format of the makeup quiz. The instructor is not required to make up work for unexcused class absences. The
instructor reserves the right to give full or partial credit for any makeup work that is allowed and that resulted from an unexcused absence.

Attendance: Attendance is based on the student missing no more than 10% out of the semester without a valid excuse. After the 10%, the instructor may withdraw the student at their discretion. Any student thirty or more minutes late will be counted absent. Students that leave before class is dismissed will be counted absent. The Instructor reserves the right to dock points for any missed class without a legitimate excuse.

Missed Lab Exercises: Students will have one day out of the semester assigned by the instructor to make up any lab exercises missed due to the student being absent for legitimate reasons. Instructors are not required to make up work for unexcused class absences. Instructors reserve the right to give full or partial credit for makeup work that is given because of unexcused absences.

Plagiarism: Plagiarism shall be defined as appropriating, buying, receiving as a gift or obtaining by any other means, another person’s work and the unacknowledged submission or incorporation of it in one’s own written work. All papers submitted to Canvas will be scanned with turnitin.com and the instructor reserves the right to dock points based on the results.

Cheating: Cheating on a test shall include:

a. Copying from another student’s test
b. Using test materials not authorized by the person administering the test
c. Collaborating with or seeking aid from another student during a test without permission from the test administrator
d. Knowingly using, buying, selling, stealing, or soliciting, in whole or in part, the contents of an unadministered test.
e. The unauthorized transporting or removal, in whole or in part, of the contents of the unadministered test.
f. Substituting for another student, or permitting another student to substitute for one’s self, to take a test.
g. Bribing another person to obtain an unadministered test or information about an unadministered test absolutely no cheating is tolerated.
h. If a student is observed cheating they will be sent home immediately counted absent and given a zero on the assignment they were cheating on.

Safety: All students are required in lab exercises to bring and wear the proper PPE as instructed by your instructor. Failure to do so will result in one warning; if a student continues to violate safety rules the student will be sent home and counted absent.

Class Conduct: All cell phones should be turned off in all classes. If you must receive a call notify your instructor and step out of the classroom. No cell phones are allowed during testing. No disruptive
behavior is allowed in class; if a student is being disruptive as determined by the instructor one warning will be given. If the behavior persists, the student will be sent home and counted absent.

Grading Scale A=90-100, B=80-89, C=70-79, D=60-69, F=69 and below

Texts, Materials, and Supplies:
- Calculator (Your cell phone is not a calculator!!)
- Notepad and pen or pencil

Required Readings:
- NFPA 70, National Electrical Code, 2017 Edition (Provide by Panola College)

Recommended Readings:
- None

Other:
- Courses conducted via video conferencing may be recorded and shared for instructional purposes by the instructor.
- For current texts and materials, use the following link to access bookstore listings: [https://www.panolacollegestore.com](https://www.panolacollegestore.com)
- For testing services, use the following link: [https://www.panola.edu/elearning/testing.html](https://www.panola.edu/elearning/testing.html)
- If any student in this class has special classroom or testing needs because of a physical learning or emotional condition, please contact the ADA Student Coordinator in Support Services located in the Charles C. Matthews Student Center or go to [https://www.panola.edu/student-success/disability-support-services/](https://www.panola.edu/student-success/disability-support-services/) for more information.
- Withdrawing from a course is the student's responsibility. Students who do not attend class and who do not withdraw will receive the grade earned for the course.
  - Student Handbook, *The Pathfinder*:
1) **Foundation skills are defined in three areas: basic skills, thinking skills, and personal qualities.**

   a) **Basic Skills:** A worker must read, write, perform arithmetic and mathematical operations, listen, and speak effectively. These skills include:
      i) **Reading:** locate, understand, and interpret written information in prose and in documents such as manuals, graphs, and schedules.
      ii) **Writing:** communicate thoughts, ideas, information, and messages in writing, and create documents such as letters, directions, manuals, reports, graphs, and flowcharts.
      iii) **Arithmetic and Mathematical Operations:** perform basic computations and approach practical problems by choosing appropriately from a variety of mathematical techniques.
      iv) **Listening:** receive, attend to, interpret, and respond to verbal messages and other cues.
      v) **Speaking:** Organize ideas and communicate orally.

   b) **Thinking Skills:** A worker must think creatively, make decisions, solve problems, visualize, know how to learn, and reason effectively. These skills include:
      i) **Creative Thinking:** generate new ideas.
      ii) **Decision Making:** specify goals and constraints, generate alternatives, consider risks, and evaluate and choose the best alternative.
      iii) **Problem Solving:** recognize problems and devise and implement plan of action.
      iv) **Visualize (“Seeing Things in the Mind’s Eye”):** organize and process symbols, pictures, graphs, objects, and other information.
      v) **Knowing How to Learn:** use efficient learning techniques to acquire and apply new knowledge and skills.
      vi) **Reasoning:** discover a rule or principle underlying the relationship between two or more objects and apply it when solving a problem.

   c) **Personal Qualities:** A worker must display responsibility, self-esteem, sociability, self-management, integrity, and honesty.
      i) **Responsibility:** exert a high level of effort and persevere toward goal attainment.
      ii) **Self-Esteem:** believe in one's own self-worth and maintain a positive view of oneself.
      iii) **Sociability:** demonstrate understanding, friendliness, adaptability, empathy, and politeness in group settings.
      iv) **Self-Management:** assess oneself accurately, set personal goals, monitor progress, and exhibit self-control.
      v) **Integrity and Honesty:** choose ethical courses of action.

2) **Workplace competencies are defined in five areas: resources, interpersonal skills, information, systems, and technology.**

   a) **Resources:** A worker must identify, organize, plan, and allocate resources effectively.
      i) **Time:** select goal-relevant activities, rank them, allocate time, and prepare and follow schedules.
      ii) **Money:** Use or prepare budgets, make forecasts, keep records, and make adjustments to meet objectives.
      iii) **Material and Facilities:** Acquire, store, allocate, and use materials or space efficiently.
         Examples: construct a decision timeline chart; use computer software to plan a project; prepare a budget; conduct a cost/benefits analysis; design an RFP process; write a job description; develop a staffing plan.
b) **Interpersonal Skills**: A worker must work with others effectively.
   i) Participate as a Member of a Team: contribute to group effort.
   ii) Teach Others New Skills.
   iii) Serve Clients/Customers: work to satisfy customer’s expectations.
   iv) Exercise Leadership: communicate ideas to justify position, persuade and convince others, responsibly challenge existing procedures and policies.
   v) Negotiate: work toward agreements involving exchange of resources, resolve divergent interests.
   vi) Work with Diversity: work well with men and women from diverse backgrounds.
   Examples: collaborate with a group member to solve a problem; work through a group conflict situation, train a colleague; deal with a dissatisfied customer in person; select and use appropriate leadership styles; use effective delegation techniques; conduct an individual or team negotiation; demonstrate an understanding of how people from different cultural backgrounds might behave in various situations.

c) **Information**: A worker must be able to acquire and use information.
   i) Acquire and Evaluate Information.
   ii) Organize and Maintain Information.
   iii) Interpret and Communicate Information.
   iv) Use Computers to Process Information.
   Examples: research and collect data from various sources; develop a form to collect data; develop an inventory record-keeping system; produce a report using graphics; make an oral presentation using various media; use on-line computer databases to research a report; use a computer spreadsheet to develop a budget.

d) **Systems**: A worker must understand complex interrelationships.
   i) Understand Systems: know how social, organizational, and technological systems work and operate effectively with them.
   ii) Monitor and Correct Performance: distinguish trends, predict impacts on system operations, diagnose deviations in systems’ performance and correct malfunctions.
   iii) Improve or Design Systems: suggest modifications to existing systems and develop new or alternative systems to improve performance.
   Examples: draw and interpret an organizational chart; develop a monitoring process; choose a situation needing improvement, break it down, examine it, propose an improvement, and implement it.

e) **Technology**: A worker must be able to work with a variety of technologies.
   i) Select Technology: choose procedures, tools or equipment including computers and related technologies.
   ii) Apply Technologies to Task: understand overall intent and proper procedures for setup and operation of equipment.
   iii) Maintain and Troubleshoot Equipment: Prevent, identify, or solve problems with equipment, including computers and other technologies.
   Examples: read equipment descriptions and technical specifications to select equipment to meet needs; set up and assemble appropriate equipment from instructions; read and follow directions for troubleshooting and repairing equipment.
