Course Syllabus
HPRS 2332 – Health Care Communications

Catalog Description: Methods of communication with clients, client support groups, health care professionals, and external agencies.

Prerequisites: none

Semester Credit Hours: 3
Lecture Hours per Week: 3
Lab Hours per Week: 0
Contact Hours per Semester: 48

State Approval Code: CIP 51.0000

Class section meeting time: MW 9:05-10:00 am Hybrid—students are expected to spend at least 3-4 hours per week reading, reviewing, and participating in assigned activities for successful completion of this course.

Alternate Operations During Campus Closure: In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College’s website (www.panola.edu) for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information.

Instructional Goals and Purposes: The purpose of this course is to prepare students with basic interpersonal and communication skills needed by the Medical Assistants in the medical office or clinic setting.

Learning Outcomes:
After studying all materials and resources presented in the course, the student will be able to:

1. Apply oral, written and technological methods of communication with clients, client support groups, health care professionals, and external agencies.
2. Utilize data management techniques.
3. Explain and describe effective and non-effective communication techniques.
4. Differentiate between verbal and non-verbal communication.
5. Identify behaviors that interfere with effective communication.
6. Identify elements of active listening and benefits of professional communication.
7. Perform interview techniques and demonstrate or explain appropriate patient education practices.
8. Identify relationships among various health care professionals and patients of various educational levels.
9. Demonstrate knowledge of various ethnic groups and discuss communication between cultures.
10. Discuss the aspects of electronic communication methods.
11. Demonstrate proper grammar and writing skills.
12. Explain basic psychological principles and developmental stages of life.

Specific Course Objectives (includes SCANS):
After studying all materials and resources presented in the course, the student will be able to:

1. **Chapter 1 Communication and the Quality of Care (1 aiv, 1av)**
   a. Explain the importance of effective communication
   b. Illustrate the role of therapeutic communication in patient outcomes
   c. Describe the elements of the communication process
   d. Describe the obstacles to successful communication

2. **Chapter 2 Nonverbal Communication (1 aiv, 1av)**
   a. Describe why the understanding of nonverbal communication is important in health care
   b. Explain how each of the following may convey nonverbal messages to the observer: gestures, facial expressions, gaze patterns, personal space, position, posture, and touch
   c. Explain why verbal messages and nonverbal messages must be consistent with each other
   d. Describe the methods by which the healthcare professional can confirm his or her interpretation of a patient’s nonverbal behavior
   e. Describe the proper nonverbal communication skills for the healthcare professional

3. **Chapter 3 Verbal Communication (1 av, 1 aiv)**
   a. Explain the purposes of using clear language for effective verbal communication with patients
   b. Describe and illustrate paralanguage and how it can impact communication
   c. Identify practices for effective verbal communication with patients and other healthcare providers
   d. Develop skills for listening and paraphrasing
   e. Explain why providing empathy and understanding to the patient is so important
   f. Demonstrate the methods of questioning the patient

4. **Chapter 4 Professional Communication and Behavior (1 civ, 1 aiv, 1 av)**
   a. Identify the benefits of effective professional communication and behavior
   b. Describe the interpersonal skills that are essential for the successful healthcare professional
   c. Discuss effective therapeutic communication skills
   d. Explain roadblocks to therapeutic communication
   e. Discuss strategies for effectively working with patients who may be angry or anxious
   f. Describe strategies for effective communication with other members of the healthcare team
   g. Explain the Health Insurance Portability and Accountability Act (HIPAA) and discuss the privacy issues surrounding HIPAA

5. **Chapter 5 Modifying Communication to a Patient’s Unique Needs (1 ci, 1 ciili)**
   a. Describe the elements of effective communication with chronically ill patients
   b. Explain the strategies to navigate communication with terminally ill patients
   c. Describe the strategies to effectively communicate with patients with intellectual disabilities
   d. Explain the strategies to navigate communication with mentally ill patients

6. **Chapter 6 Adapting Communication to a Patient’s Ability to Understand (2 bvi)**
   a. Explain how low health literacy may impact a patient’s health
   b. Describe several strategies that will facilitate communication between a healthcare professional and a patient with low health literacy
   c. Explain how language barriers may impact communication between a healthcare professional and his or her patient
   d. Describe several strategies that will facilitate communication between a healthcare professional and a patient who speaks a different language
   e. Describe several strategies that will facilitate communication between a healthcare professional and a patient who is visually impaired
f. Describe several strategies that will facilitate communication between a healthcare professional and a patient who is deaf or hard of hearing.
g. Explain how advanced age may impact communication between a healthcare professional and their patient.
h. Describe several strategies that will facilitate communication between a healthcare professional and an elderly patient.
i. Distinguish between delirium and dementia.
j. Describe several strategies that will facilitate communication between a healthcare professional and a patient with impaired cognitive abilities.

7. Chapter 7 Cultural Sensitivity (2 bii, 2 biii)
   a. Discuss the ways in which our society is becoming more multicultural and ethnically diverse.
   b. Explain the documented disparity that ethnic and racial minorities experience in the quality and availability of health care.
   c. Define cultural competence and explain the need for it on the part of healthcare professionals.
   d. Describe a model for developing cultural competence.
   e. Discuss nonverbal communication between cultures.
   f. Explain the responsibilities of all healthcare providers under the National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health and Health Care.
   g. Discuss the need for and the use of interpreters.

8. Chapter 8 Interviewing Techniques (2 bvi, 2 bi)
   a. Understand the unequal relationship between the healthcare professional and the patient.
   b. Describe ways in which the healthcare professional may show concern for the patient during the interview.
   c. Determine who should be interviewed to provide medical information for a given patient.
   d. Describe the differences between patient interviews that take place in person and those that occur over the telephone.
   e. Distinguish between closed questions, open-ended questions, and indirect statements.
   f. Compare and contrast the healthcare professional centered interview and the patient-centered interview.
   g. Develop skills that lead to the “pinpointing” of the chief complaint.
   h. Describe the legal restrictions and ethical issues associated with the patient interview.

9. Chapter 9 Patient Education (1 aii, 2 eiii)
   a. Identify the benefits of patient education.
   b. Describe the factors that determine the type of instruction needed.
   c. Describe the factors that may influence the patient’s response to the instruction.
   d. Distinguish the three types of learning styles.
   e. Design behavioral objectives, determine the content that should be included, and discuss the factors that contribute to clear communication during a teaching session.
   f. Discuss the strategies that contribute to effective patient instruction.
   g. Explain how interaction and two-way communication with the patient enhance the educational process.
   h. Describe the benefits and identify the potential limitations of using visual aids and written materials.

10. Chapter 10 Electronic Communication (1ai, 1aii, 1 bv, 2 bi)
    a. Explain how telecommunication, facsimile (fax), and email differ from face-to-face communication.
    b. Discuss the guidelines for the effective use of the telephone in the healthcare setting.
    c. Identify the types of incoming patient calls that are commonly handled by healthcare professionals.
    d. Discuss the guidelines for dealing effectively with an angry patient.
    e. Identify the types of incoming nonpatient calls that are commonly handled by healthcare professionals.
f. Describe the minimum information needed for a telephone message taken in a healthcare setting

g. Define telephone triage and explain why it is an important procedure

h. List the symptoms and conditions that require immediate medical help

i. Discuss the guidelines for effectively handling potential emergency calls

j. Describe the type of information an emergency dispatcher will require and its significance

k. List the items of information that should be included on a facsimile (fax) cover sheet

l. Discuss the guidelines for the secure operation of a facsimile (fax) machine

m. Discuss the guidelines for the effective use of email in the healthcare setting

11. Chapter 11 The Communication Skills You Need to Land That Job (1ai, 1aii, 1 bv, 2 bi)

   a. Describe the elements of an effective resume

   b. Explain the importance and describe the elements of an effective cover letter

   c. Understand the importance of interview preparation

   d. Discuss the process of a successful interview

   e. Explain the importance and describe the elements of an effective thank you letter

12. Chapter 12 Fundamental Writing Skills (1ai, 1aii, 1 bv, 2 bi)

   a. Explain the functions and purposes of the parts of speech and punctuation

   b. Illustrate correct sentence grammar

   c. Identify common sentence errors and strategies for correcting them

   d. Demonstrate effective paragraph basics

   e. Explain the basics of SOAP notes

   f. Provide an overview and list of resources for APA style

   g. Describe the basics of electronic health records

Course Content:
A general description of lecture/discussion topics included in this course is listed in the Learning Objectives / Specific Course Objectives sections of this syllabus.

Students in all sections of this course will be required to do the following:
1. End of chapter questions or quizzes
2. Role play scenarios
3. Teaching plan project/presentation
4. Exams over chapter 1-12
5. Final exam

Methods of Instruction/Course Format/Delivery: Students are expected to demonstrate basic competency in reading, writing, oral communication, math, and computer skills. Students are expected to be an active learning participant by assuming accountability in preparing for each class by completing required readings and/or other learning activities as listed in each unit assignment. Proficiency will be measured by examination scores, oral discussions and/or presentations, case studies and internet research activities.

Students should use the Email within Canvas to communicate with the instructor. Using Canvas email gives you access to the instructor and other classmates without having to remember or type email addresses - you must select a name from the list. If you are not able to contact me using email in Canvas, you may use my Panola College email address, contact me by telephone, or stop by my office. I attempt to respond to all email within 24 hours. Please always include a subject line and your name in your email.

Major Assignments / Assessments:
The following items will be assigned and assessed during the semester and used to calculate the student’s final grade.

Assignments
1. Read each chapter and answer end of chapter questions as assigned (chapters 1-12)
2. Complete online quizzes as assigned, on time
3. In small groups, create role plays (MA, patient, family member, etc.) to present for the class.
4. Group project: Create a teaching plan for a disease/condition prevalent in a certain ethnic group, with a visual aid(s) (brochure, power point, or poster) and present to the class.

Assessment(s):
1. Online quizzes
2. End of chapter questions (may be asked to turn in or discuss in class)
3. 3 Major Exams
4. Evaluation of teaching project
5. Final exam (comprehensive)

Course Grade:
The grading scale for this course is as follows:
- Attendance – 5%
- Assignments – 15%
- Teaching presentation 20%
- Exams 30%
- Final Exam 30%

Texts, Materials, and Supplies:
- *Communication Skills for the Healthcare Professional*, Enhanced second edition, McCorry, L., Mason, J., Jones and Bartlett Learning, Copyright 2021

Required Readings:
- Communication Skills for the Healthcare Professional
- Internet research for teaching presentation

Recommended Readings:
- Medical Assisting Made Incredibly Easy: Therapeutic Communication (on Reserve in library)
- Ma Notes (F.A. Davis)

Other:
- For current texts and materials, use the following link to access bookstore listings: [http://www.panolacollegestore.com](http://www.panolacollegestore.com)
- For testing services, use the following link: [http://www.panola.edu/elearning/testing.html](http://www.panola.edu/elearning/testing.html)
- If any student in this class has special classroom or testing needs because of a physical learning or emotional condition, please contact the ADA Student Coordinator in Support Services located in the Administration Building or go to [http://www.panola.edu/student-success/disability-support-services/](http://www.panola.edu/student-success/disability-support-services/) for more information.
- Withdrawing from a course is the student’s responsibility. Students who do not attend class and who do not withdraw will receive the grade earned for the course.
SCANS CRITERIA

1) **Foundation skills are defined in three areas: basic skills, thinking skills, and personal qualities.**

a) **Basic Skills:** A worker must read, write, perform arithmetic and mathematical operations, listen, and speak effectively. These skills include:
   i) Reading: locate, understand, and interpret written information in prose and in documents such as manuals, graphs, and schedules.
   ii) Writing: communicate thoughts, ideas, information, and messages in writing, and create documents such as letters, directions, manuals, reports, graphs, and flow charts.
   iii) Arithmetic and Mathematical Operations: perform basic computations and approach practical problems by choosing appropriately from a variety of mathematical techniques.
   iv) Listening: receive, attend to, interpret, and respond to verbal messages and other cues.
   v) Speaking: Organize ideas and communicate orally.

b) **Thinking Skills:** A worker must think creatively, make decisions, solve problems, visualize, know how to learn, and reason effectively. These skills include:
   i) Creative Thinking: generate new ideas.
   ii) Decision Making: specify goals and constraints generate alternatives, consider risks, and evaluate and choose the best alternative.
   iii) Problem Solving: recognize problems and devise and implement plan of action.
   iv) Visualize (“Seeing Things in the Mind’s Eye”): organize and process symbols, pictures, graphs, objects, and other information.
   v) Knowing How to Learn: use efficient learning techniques to acquire and apply new knowledge and skills.
   vi) Reasoning: discover a rule or principle underlying the relationship between two or more objects and apply it when solving a problem.

c) **Personal Qualities:** A worker must display responsibility, self-esteem, sociability, self-management, integrity, and honesty.
   i) Responsibility: exert a high level of effort and persevere toward goal attainment.
   ii) Self-Esteem: believe in one’s own self-worth and maintain a positive view of oneself.
   iii) Sociability: demonstrate understanding, friendliness, adaptability, empathy, and politeness in group settings.
   iv) Self-Management: assess oneself accurately, set personal goals, monitor progress, and exhibit self-control.
   v) Integrity and Honesty: choose ethical courses of action.

2) **Workplace competencies are defined in five areas: resources, interpersonal skills, information, systems, and technology.**

a) **Resources:** A worker must identify, organize, plan, and allocate resources effectively.
   i) Time: select goal-relevant activities, rank them, allocate time, and prepare and follow schedules.
   ii) Money: Use or prepare budgets, make forecasts, keep records, and make adjustments to meet objectives.
   iii) Material and Facilities: Acquire, store, allocate, and use materials or space efficiently.

   Examples: construct a decision time line chart; use computer software to plan a project; prepare a budget; conduct a cost/benefits analysis; design an RFP process; write a job description; develop a staffing plan.

b) **Interpersonal Skills:** A worker must work with others effectively.
   i) Participate as a Member of a Team: contribute to group effort.
   ii) Teach Others New Skills.
   iii) Serve Clients/CUSTOMERS: work to satisfy customer’s expectations.
iv) Exercise Leadership: communicate ideas to justify position, persuade and convince others, responsibly challenge existing procedures and policies.

v) Negotiate: work toward agreements involving exchange of resources, resolve divergent interests.

vi) Work with Diversity: work well with men and women from diverse backgrounds. Examples: collaborate with a group member to solve a problem; work through a group conflict situation, train a colleague; deal with a dissatisfied customer in person; select and use appropriate leadership styles; use effective delegation techniques; conduct an individual or team negotiation; demonstrate an understanding of how people from different cultural backgrounds might behave in various situations.

c) Information: A worker must be able to acquire and use information.
   i) Acquire and Evaluate Information.
   ii) Organize and Maintain Information.
   iii) Interpret and Communicate Information.
   iv) Use Computers to Process Information.
   Examples: research and collect data from various sources; develop a form to collect data; develop an inventory record-keeping system; produce a report using graphics; make an oral presentation using various media; use on-line computer data bases to research a report; use a computer spreadsheet to develop a budget.

d) Systems: A worker must understand complex interrelationships.
   i) Understand Systems: know how social, organizational, and technological systems work and operate effectively with them.
   ii) Monitor and Correct Performance: distinguish trends, predict impacts on system operations, diagnose deviations in systems' performance and correct malfunctions.
   iii) Improve or Design Systems: suggest modifications to existing systems and develop new or alternative systems to improve performance.
   Examples: draw and interpret an organizational chart; develop a monitoring process; choose a situation needing improvement, break it down, examine it, propose an improvement, and implement it.

e) Technology: A worker must be able to work with a variety of technologies.
   i) Select Technology: choose procedures, tools or equipment including computers and related technologies.
   ii) Apply Technologies to Task: understand overall intent and proper procedures for setup and operation of equipment.
   iii) Maintain and Troubleshoot Equipment: Prevent, identify, or solve problems with equipment, including computers and other technologies.
   Examples: read equipment descriptions and technical specifications to select equipment to meet needs; set up and assemble appropriate equipment from instructions; read and follow directions for troubleshooting and repairing equipment.
